1 Introduction

1.1 Medicaid Overview

Title XIX of the Social Security Act is a Federal/State entitlement program that pays for medical assistance for certain individuals and families with low income and resources. This program, known as Medicaid, became law in 1965 as a cooperative venture jointly funded by the Federal and State governments, including the District of Columbia and the Territories, to assist States in furnishing medical assistance to eligible needy persons. **Title XXI** of the Social Security Act PeachCare for Kids™ Program (PeachCare) was passed during the 1998 session of the Georgia General Assembly. Together, Medicaid/PeachCare for Kids™ provides the largest source of funding for medical and health-related services for individuals with low income and resources.

Within broad national guidelines established by Federal statutes, regulations, and policies, each State:

1. Establishes its own eligibility standards
2. Determines the type, amount, duration, and scope of services
3. Sets the rate of payment for services
4. Administers its own program

Medicaid policies for eligibility, services, and payment are complex and vary considerably, even among States of similar size or geographic proximity. Thus, a person who is eligible for Medicaid in one State may not be eligible in another State, and the services provided by one State may differ considerably in amount, duration, or scope from services provided in a similar or neighboring State. In addition, Medicaid eligibility and/or services within a State can change during the year.

The Department of Community Health (DCH) is managed by a nine-member board appointed by the Governor, and the Division of Medical Assistance (the Division) within DCH, administers Medicaid/PeachCare for Kids™. (O.C.G.A. §§31-5A-1 *et seq.*). Service delivery is accomplished through a variety of relationships with private and public entities and reimbursement is coordinated through DCH's third party administrator Fiscal Agent, HP Enterprise Services.

1.2 HP Enterprise Services in the State of Georgia

Effective November 1, 2010, HP Enterprise Services will provide an efficient transition of fiscal agent responsibilities and a smooth transition from the current Georgia Medicaid Management Information System (GAMMIS) to the new GAMMIS InterChange. InterChange is an HP Enterprise Services-developed GAMMIS that has been developed over years of successful implementations. InterChange is a Centers for Medicare and Medicaid Services (CMS)-certifiable, highly sophisticated, feature-rich system centered on a strong, Medicaid-specific relational data model. This design and supporting architecture delivers enhanced flexibility, scalability, and reliability.

1.3 Overview of Functions

DCH

Function:

Administration
Budget and Fiscal Control
Contract Administration and Monitoring
Program Policies and Procedures
Liaison with Federal Agencies

Medical- Prior Approval (PA)
Outlier Review
Out-of-State Services
Pre-Payment Review

MAXIMUS

Function:

CMO Member Enrollment

DHS/DFCS/SSA

Function:

Eligibility Determination
Prior Approval

2 Purpose

2.1 Overview

The American Dental Association (ADA) Dental Billing Manual was created to help providers accurately complete and file a Medicaid/PeachCare for Kids™ ADA Dental claim form. This manual assists you by offering billing instructions, sample ADA Dental forms, and contact information for services beyond the scope of this manual.

2.2 The Purpose of this Manual

This manual contains basic billing information concerning Georgia's Medicaid/PeachCare for Kids™ program and is intended for use by all participating providers. This manual encompasses the terms and conditions for receipt of reimbursement.

We urge you and your office team to familiarize yourself with the contents of this manual and refer to it when questions arise. Use of the manual will assist in the elimination of misunderstandings concerning eligibility and billing procedures that can result in delays in payment, incorrect payment, or denial of payment.

This manual should be used in conjunction with the following Georgia Medicaid policy manuals:

1. Part I Policy and Procedures for Medicaid/PeachCare for Kids™ which contains basic information concerning the Georgia Medicaid Program along with the terms and conditions for receipt of reimbursement.
2. Part II Policy and Procedures specific to the services you provide. This manual explains covered services, their limitations, and who is eligible to receive the service.

Amendments to this manual will be necessary from time to time due to changes in federal and state laws and Department of Community Health (the Department), Division of Medical Assistance (Division) policy. When such amendments are made, they will be posted at the HP Enterprise Services Web Portal at www.mmis.georgia.gov which shall constitute formal notices to providers. The amended provisions will be effective on the date of the notice or as specified by the notice itself, and all providers are responsible for complying with the amended manual provisions as of their effective dates.

This page intentionally left blank.

3 Member Eligibility

3.1 Overview

The DCH establishes eligibility criteria for Medicaid/PeachCare for Kids™ benefits based upon federal regulations. For detailed member eligibility information, please see the applicable DCH Provider Policy and Procedures Manual.

3.2 How to Verify Member Eligibility

It is the responsibility of the provider to verify Medicaid/PeachCare for Kids™ eligibility on each date of service. Members are issued Medicaid/PeachCare for Kids™ identification cards (See below) which should be presented on each date of service. Providers must verify eligibility by accessing the HP Enterprise Services Web Portal at www.mmis.georgia.gov, or using the IVRS at 1-800-766-4486. Both the Web Portal and IVRS are available 24 hours per day, seven days a week. Member eligibility verification can be processed through the Web Portal either individually or in batch by submitting a Health Insurance Portability and Accountability Act (HIPAA) compliant transaction. Providers may also submit a written request for eligibility verification to:

HP Enterprise Services

P.O. Box 105200

Tucker, Georgia 30085-5200

3.3 Valid types of Member Identification

3.3.1 Medicaid/PeachCare for Kids™ Identification Card

This card replaces former member ID cards for both FFS Medicaid and PeachCare for Kids™ Plans.

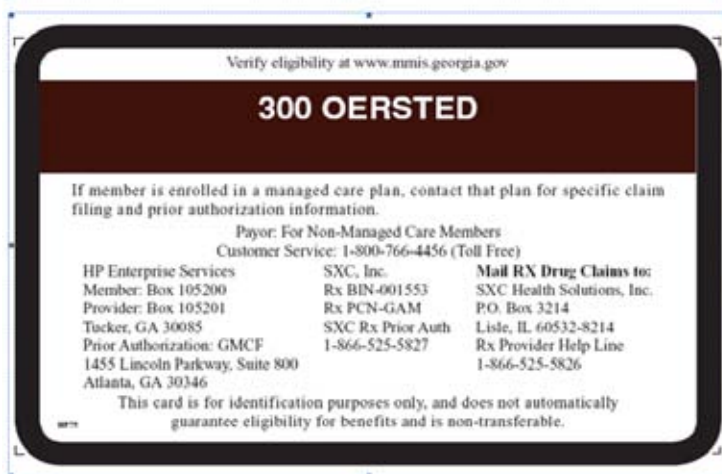

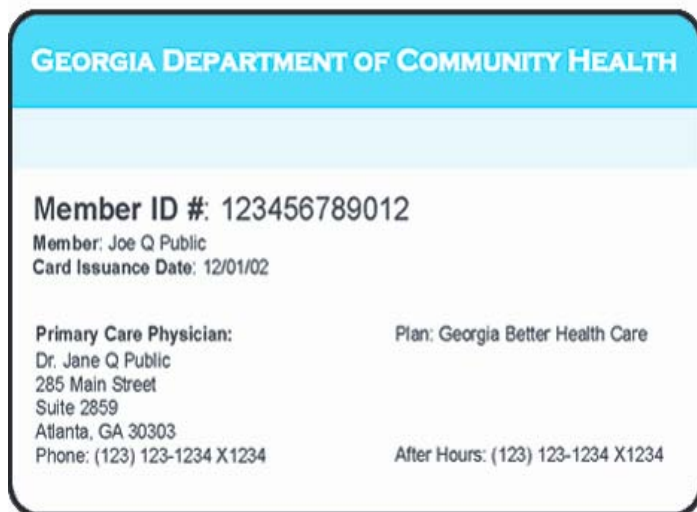

Figure 1: Front and Back of the Medicaid/PeachCare for Kids™ Identification Card

3.3.2 Supplemental Security Income Notification Letter

This letter is issued by DCH to the member. If the date of service falls within the specified months, the letter serves to verify the member's eligibility. Use the name and Medicaid number designated in the letter when completing the claim. If submitting the claim using paper, attach a copy of the letter to the claim. If a copy of this letter is required with a claim that is submitted electronically or using the Web Portal, send it with the Electronic Attachment Form and fax it to HP Enterprise Services at 1-866-483-1044 (see form in Appendix C.2). When filing paper claims send the letter with your claim to:

HP Enterprise Services

P.O. Box 105205

COMMUNITY HEALTH

APPROVAL LETTER

Date: July 10, 2010

Glory Days
1111 Peace St
Tucker, GA 33300

NOTICE OF MEDICAID STATUS

You are eligible for Medicaid for the following months: **07,2010** , ongoing.

You are eligible for Medicaid because you were paid and continue to be paid Supplemental Security Income (SSI) through the Social Security Administration. Medicaid and SSI go together.

This notice is your only proof of eligibility for these months. Take this notice to your medical care providers as soon as possible. Ask your providers to file a claim with us if you have unpaid medical bills for any of these months.

Information about the Medicaid Card

Your plastic Medicaid card will be mailed to you in the next two weeks. Your Medicaid card is not your proof of eligibility. Carry the card with you at all times. Your medical care provider uses the card to verify your Medicaid eligibility. No one is to use the Medicaid card but the member named as eligible on the front of the card. Your Medicaid card is mailed to you at the address you give the Social Security Administration. If you move, you are to report your address change to your local Social Security office as soon as possible. If you want information about Medicaid, call XXX-XXX-XXXX in Atlanta or 1-XXX-XXX-XXXX (toll free) and ask for the booklet, UNDERSTANDING MEDICAID, to be mailed to you. You may also call your local county Department of Family and Children Services for this booklet.

Medical Care Under Medicaid

Medicaid pays for most medical care that you will need. If you want Medicaid to pay for your medical care, you must use a medical care provider who agrees to accept your Medicaid each time you go for medical care. Take your Medicaid card with you each time you go for medical care. You may need certain medical care that is not paid by Medicaid or requires prior approval before Medicaid agrees to pay. This information is in the booklet, UNDERSTANDING MEDICAID. Some of the information is on the back of your Medicaid card. You also may call XXX-XXX-XXXX in Atlanta or 1-XXX-XXX-XXXX (toll free) if you have questions about medical care that requires prior approval.

Other Information

If you have unpaid medical bills incurred immediately prior to applying for or receiving SSI, you may be eligible for Medicaid to pay for these unpaid medical bills. Contact your local county Department of Family and Children Services to apply for Prior Months Medicaid. If you already have MEDICARE insurance through the Social Security Administration, then Medicaid will pay your MEDICARE cost share. MEDICARE cost share (out-of-pocket expenses) includes the monthly insurance premium, the yearly deductible and the coinsurance charges.

Note: If you ever refuse Medicare insurance because you did not want to pay the monthly premium, then you may now want to apply for Medicare. Medicaid will pay the monthly premium for you under the QMB program. However, Medicaid will pay for your hospital and medical expenses even if you do not have Medicare. You would apply for QMB at your local county Department of Family and Children Services.

If you are pregnant or breastfeeding a child or if you have a child under age 5, you may apply for a supplemental food program know as WIC (women, infants and children). You may apply for WIC at your county public health office, at Southside, Inc. (Atlanta) or at Grady Hospital (Atlanta).

Figure 2: Supplemental Security Income Notification Letter

3.3.3 Certification of Supplemental Security Income Eligibility Letter

The Social Security Administration issues this letter. If the Date of Service is included within the specified month, this letter serves as verification of the member's eligibility. Use the name and Medicaid number designated on the letter when completing the claim, and keep a copy of the letter for your records. The Medicaid ID number can be used to verify eligibility. This information will also appear on your Remittance Advice (RA). If a copy of this letter is required with a claim that is submitted electronically or using the Web Portal, send it with the Electronic Attachment Form and fax it to HP Enterprise Services at 1-866-483-1044 (see form in Appendix C.2). When filing paper claims send the letter with your claim to:

HP Enterprise Services

3.3.5 Presumptive Eligibility for Pregnant Women Worksheet (DMA-632)

The qualified provider issues the DMA-632 to the presumptively eligible member. The DMA-632 serves as the member's temporary identification card and may be used as confirmation of presumptive eligibility for the Medicaid program as of the indicated date. The qualified provider should print the computer generated form, produced using the Web Portal (see figure 7) and give it to the member. The member receives the green copy of the worksheet if hand generated. Either the computer generated or green copy serves as the first month's Medicaid certification. A member can use the form until the permanent member identification card arrives.

Note: Presumptive eligibility covers all Medicaid services except inpatient hospital services and delivery procedures.

3.3.7 Newborn Eligibility (DMA-550)

The qualified provider issues the DMA-550 worksheet to a newborn's mother. This worksheet serves as the first month's Medicaid certification. There is also a computer generated DMA-550 worksheet that is produced using the Web Portal. (See figure 11 for hand-written and figure 12 for an example of the computer generated form.)

Note: The Web Portal newborn eligibility site, limits qualified providers to entering only one newborn. The Web Portal should not be used for submitting newborn eligibility for multiple births. Qualified providers must submit the newborn eligibility form directly to HP Enterprise Services to have the additional newborn information and eligibility added.

4 Completing the 2006 American Dental Association (ADA) Dental Claim Form

4.1 Overview

Medicaid cannot make payments to a provider who performs services to a Medicaid member unless the provider submits a claim for reimbursement.

Federal regulations prohibit providers from charging members, the Georgia Medicaid Agency, or HP Enterprise Services a fee for completing or filing Medicaid claim forms. The cost of filing a claim is considered part of the usual and customary charges for all members.

This chapter provides basic information for filing claims. The information is specific to providers who can bill on the 2006 ADA dental claim form; it is intended to give all providers an understanding of the various methods for claims submission and instructions on completing the claim form. Once you understand the information in this section, you will need to refer to your specific provider type in the Policy and Procedures Manual, Part II chapter that details specific billing instructions for your services.

This chapter describes how to complete and submit the dental claim form for payment from the Georgia Medicaid Program through HP Enterprise Services.

4.2 Providers Responsibility

Georgia Medicaid has implemented all of the requirements contained in the federal legislation known as the Health Insurance Portability and Accountability Act (HIPAA). As trading partners with Georgia Medicaid, all Medicaid providers, including their staff, contracted staff and volunteers, must comply with HIPAA privacy requirements. Providers who meet the definition of a covered entity according to HIPAA must comply with HIPAA Electronic Data Interchange (EDI) requirements. This manual contains the claims processing requirements for Georgia Medicaid, including the requirements necessary to comply with HIPAA.

4.3 Dental Services Billed on the CMS-1500 Claim Form

Dental providers must complete a CMS-1500 claim form (08/05) for the procedure codes listed in the Policy and Procedures for Oral and Maxillofacial Surgery Services Manual, Part II. Only dentists enrolled in the Medicaid program as oral surgeons may bill these codes. This manual is available at the HP Enterprise Services Web Portal at www.mmis.georgia.gov.

4.4 Time Limit for Submission of a Claim Form

4.4.1 Timely Claim Submission

Medicaid providers must submit claims within six months from the date of service. DCH urges providers to submit claims immediately after providing services so that the claim can be corrected if necessary, and then resubmitted before the filing deadline. See the Policy and Procedures Manual, Part I, chapter 200 for detailed information on Timely Submission.

4.4.2 Clean Claim

In order for a claim to be paid, it must be a clean claim. A clean claim means a claim that:

1. Has been completed properly according to Medicaid billing guidelines on the dental claim form with red dropout ink.
2. Is accompanied by all necessary documentation required by federal law, state law, or state administrative rule for payment.
3. Can be processed and adjudicated without obtaining additional information from the provider or from a third party.

4.4.3 Six-Month Filing Limit

A clean claim for services rendered must be received by HP Enterprise Services no later than six months from the date of service.

4.4.4 Out-Of-State Claims

Claims submitted by an out-of-state provider must be received by HP Enterprise Services no later than 12 months from the date of service to be considered for payment.

Out-of-state providers must comply with all other Georgia Medicaid claim filing time limits.

4.4.5 Date Received Determined

The date of receipt for a paper claim is determined by the actual date of receipt in the HP Enterprise Services mail room, not the mail date or post mark date. An ICN is assigned to each paper claim received. This 13-digit ICN contains the region code, date of receipt, and a sequence number. The format is RRYDDSSSSSS. The date electronically coded on the provider's electronic transmission by HP Enterprise Services is the recorded date of receipt for an electronically submitted claim.

4.4.6 Medicare/Medicaid Crossover Claims

Claims in this category must be received within 24 months from the month of service at the address used for regular claims submission. A provider must wait at least 45 days from the date of payment by Medicare and not automatically sent by the Medicare Carrier or Intermediary to submit a Medicare crossover claim.

4.4.7 Third Party Payer or Insurance Claims

Claims originally filed timely with a third party carrier, but were denied or paid insufficiently, must be billed to Medicaid within three months from the date of the denial or payment, but never more than 12 months from the month of service. Claims filed timely with a third party carrier, but did not generate a response from the carrier, despite all reasonable actions taken, may be filed with Medicaid using the COB Notification Form attachment, (DMA-410), indicating no response was received.

Note: Please refer to the Policy and Procedures Manual, Part I and the Medicaid Secondary User Guide for detail COB requirements.

4.5 How to Complete the 2006 ADA Dental Claim Form

ADA Dental Claim Form

[illegible]

4.5.1 2006 ADA Dental Claim Form Field Description

The following table provides a brief description of the fields located on the 2006 ADA Dental claim form. The alphanumeric data located in the **Field Locator** column identifies the location of the field on the 2006 ADA Dental claim form. Data is entered in this area on the form. The data located in the **Field Name** column identifies and names the field for the given location. The alpha character shown in the **Required Field** denotes the following:

1. R - Required
2. C - Conditionally required, if applicable
3. Blank - Not required

The information located under the **Guidelines** area explains what you should enter in the given field.

This section contains an illustration of the 2006 ADA Dental claim form, step-by-step instructions, and a sample of a completed form.

Field Locator	Description	Required Fields	Guidelines
Header Information Section			
1	Type of Transaction	R	Mark the Statement of Actual Services box with an X or a checkmark.
2	Predetermination/ Preauthorization Number	C	If the procedure required prior authorization (PA), enter the PA number in this box.
Insurance Company Or Dental Benefit Plan Information Section			
3	Company/Plan Name, Address, City, State, Zip Code	R	Enter "Georgia Medicaid" in this field. Enter the address where the claim form is being mailed.
Other Coverage Section			
4	Other Dental or Medical Coverage	C	A "NO" or "YES" response is required based on information available to the dentist. If "NO," skip to field 12. If "YES," complete fields 5 through 11 and attach the Explanation of Benefits to the claim, if applicable.
5	Name of Policyholder Subscriber in #4	C	If the member has other coverage through a spouse or a parent, enter the name of the person who has the other coverage. Enter the name in last, first, middle initial, suffix order,

Field Locator	Description	Required Fields	Guidelines
			if applicable.
6	Date of Birth	R	Enter the date of birth of the person listed in field 5. The date must be entered with two digits each for the month and day and four digits for the year, i.e., MM/DD/CCYY.
7	Gender	R	Mark the gender of the person who is listed in field 5. Mark "M" for male or "F" for female.
8	Policyholder Subscriber ID	C	Enter the identifier number of the person who is listed in field 5. The identifier number is the number assigned by the payer or insurance company to this individual, if applicable.
9	Plan/Group Number	C	Enter the group plan or policy number of the person identified in field 5, if applicable.
10	Patient Relationship to Insured	C	Mark the member's relationship to the other insured named in field 5, if applicable.
11	Other Insurance Company/Dental Benefit Plan	C	Enter the name, address, city, state, zip code of the additional payer, benefit plan or entity for the insured named in field 5, if applicable.
Policyholder Or Subscriber Information Section			
12	Policyholder/Subscriber Name and Address	R	Enter the member's complete name, address, and ZIP code. Enter the name in last, first, middle initial, suffix order.
13	Date of Birth	R	A total of eight digits are required for this field; two for the month, two for the day of the month, and four for the year, i.e., MM/DD/CCYY.
14	Gender	Blank	
15	Policyholder Subscriber ID	R	Enter the Member's Medicaid Identification (ID) Number.
16	Plan/Group Number	Blank	
17	Employer Name	Blank	

Field Locator	Description	Required Fields	Guidelines
Patient Information Section			
18	Relationship to Policyholder/ Subscriber in #12 Above	R	Mark the box for "Self."
19	Student Status	Blank	
20	Name and Address	Blank	
21	Date of Birth	Blank	
22	Gender	Blank	
23	Patient ID/Account Number	C	Enter the number assigned by the dentist's office to identify the patient in their records or accounts.
Record Of Services Provided Section			
24	Procedure Date	R	Enter the procedure date for actual services performed. A total of eight digits are required for this field; two for the month, two for the day of the month, and four for the year, i.e., MM/DD/CCYY.
25	Area of Oral Cavity	C	Use of this field is conditional. Report the area of the oral cavity. Code Area 10 Upper right quadrant 20 Upper left quadrant 30 Lower left quadrant 40 Lower right quadrant UR Upper right UL Upper left LL Lower left LR Lower right
26	Tooth System	Blank	
27	Tooth Number or Letter	C	Enter the appropriate tooth number or letter from the ADA's Universal/National Tooth Designation System when the procedure directly involves a tooth. Otherwise leave blank. If the same procedure is performed

Field Locator	Description	Required Fields	Guidelines																
			on more than a single tooth on the same date of service, report each procedure and tooth involved on separate lines of the claim form.																
28	Tooth Surface	C	<p>This field is necessary when the procedure performed by tooth involves one or more tooth surfaces.</p> <table border="0"> <tr> <td>Surface</td><td>Code</td></tr> <tr> <td>Buccal</td><td>B</td></tr> <tr> <td>Distal</td><td>D</td></tr> <tr> <td>Facial (or labial)</td><td>F</td></tr> <tr> <td>Incisal</td><td>I</td></tr> <tr> <td>Lingual</td><td>L</td></tr> <tr> <td>Mesial</td><td>M</td></tr> <tr> <td>Occlusal</td><td>O</td></tr> </table>	Surface	Code	Buccal	B	Distal	D	Facial (or labial)	F	Incisal	I	Lingual	L	Mesial	M	Occlusal	O
Surface	Code																		
Buccal	B

Facial (or labial)	F																		
Incisal	I																		
Lingual	L																		
Mesial	M																		
Occlusal	O																		
29	Procedure Code	R	Enter the appropriate procedure code from the dental fee schedule.																
30	Description	R	Provide a brief description of the service provided.																
31	Fee	R	Enter the dentist's usual and customary fee for the procedure.																
32	Other Fees(s)	C	Enter other fees, if applicable.																
33	Total Fee	R	Enter the total of all the fees in field 31 claim lines 1 through 10.																
34	Missing Teeth Information	R	This field pertains to fixed or removable prosthetics. Place an "X" on each missing tooth.																
35	Remarks	C	Enter the TPL paid amount.																
Authorizations Section																			
36	Patient Consent	Blank																	
37	Insured's Signature	Blank																	
Ancillary Claim And Treatment Information Section																			
38	Place of Treatment	C	Mark the box for the appropriate choice: "Provider's Office," "Hospital," "ECF" (Extended Care Facility), or "Other" if none of the prior options apply.																
39	Number of	C	If no enclosures are submitted with the claim, enter "00" in each of the																

Field Locator	Description	Required Fields	Guidelines
	Enclosures (00 to 99)		boxes to verify that nothing has been sent and therefore no possible attachments are missing.
40	Is Treatment For Orthodontics?	C	If "NO," skip to field 43. If "YES," answer Fields 41 and 42 if the information is known.
41	Date Appliance Placed (MM/DD/CCYY)	C	Complete if the answer to field 40 was "Yes." Enter the date in an eight-digit format, i.e., MM/DD/CCYY.
42	Months of Treatment Remaining	C	Complete if the answer to field 40 was "Yes." Enter the months of treatment remaining.
43	Replacement of Prosthesis	C	<p>This field applies to removable prosthetic(s) (partial or full denture).</p> <p>If the claim does not involve a prosthetic restoration, mark "No" and proceed to field 45.</p> <p>If the claim is for the initial placement of a removable prosthesis, mark "No" and proceed to field 45.</p> <p>If Georgia Medicaid had previously paid for replacement of a removable prosthesis (partial or full denture), mark "Yes," and complete field 44.</p>
44	Date of Prior Placement	C	Complete if the answer to field 43 was "Yes." Enter the date in an eight-digit format, i.e., MM/DD/CCYY.
45	Treatment Resulting From	C	If treatment is resulting from an Auto accident or Other accident answer Fields 46 and 47 if the information is known.
46	Date of Accident	C	Complete if the answer to field 45 was Auto accident or Other accident. Enter the date in an eight-digit format, i.e., MM/DD/CCYY.
47	Auto Accident State	C	Complete if the answer to field 45 was Auto accident or Other accident. Enter the State the

Field Locator	Description	Required Fields	Guidelines
			accident occurred in.
Billing Dentist Or Dental Entity Section			
48	Name, Address, City, State, Zip Code	R	Enter the pay to provider's name and complete address.
49	NPI	C	<p>Entry of NPI on paper claims is optional. Georgia Medicaid recommends that you continue to enter Medicaid provider numbers on paper claims.</p> <p>If entering the pay to provider's NPI, enter it in this field. If the provider's NPI is mapped to a taxonomy code that is needed to identify the provider in the Georgia Medicaid claims processing system, the provider must enter qualifier code ZZ and the taxonomy code in field 52A, Additional Provider ID.</p> <p>If not entering the NPI, leave blank.</p>
50	License Number	Blank	
51	Social Security number (SSN) or TIN	Blank	
52	Phone Number	R	Enter the business phone number (area code and number) of the billing dentist or dental entity.
52A	Additional Provider ID	C	<p>If entering the pay to provider's Medicaid provider number, enter it in this field preceded by the qualifier code 1D (qualifier code 1D stands for Medicaid provider number). Do not enter a space, hyphen, or other separator between the qualifier and Medicaid number. For example: 1D123456789. If entering the pay to provider's NPI in field 49 and if the NPI is mapped to a taxonomy code that is needed to identify the provider in the Georgia Medicaid claims processing system, enter qualifier code ZZ and the taxonomy code.</p>

Field Locator	Description	Required Fields	Guidelines
Treating Dentist And Treatment Location Information Section			
53	Signature and Date	R	Signature of the treating dentist and the date that the claim form is signed. If the provider uses a facsimile signature or a signature stamp, the entry must be initialed. The provider is responsible for ensuring that the signature on the claim is that of an authorized individual.
54	NPI	C	Entry of NPI on paper claims is optional. Georgia Medicaid recommends that you continue to enter Medicaid provider numbers on paper claims. If entering the treating provider's NPI and if the treating provider's NPI is mapped to a taxonomy code that is needed to identify the provider in the Georgia Medicaid claims processing system, enter qualifier code ZZ and the taxonomy code in field 56A.
55	License Number	Blank	
56	Address, City, State, Zip Code	R	Enter the physical location where the treatment was rendered. This must be a street address, not a Post Office box.
56A	Provider Specialty Code	C	If entering the treating provider's NPI in field 54 and if the NPI is mapped to a taxonomy code that is needed to identify the provider in the Georgia Medicaid claims processing system, enter qualifier code ZZ and the taxonomy code.
57	Phone Number	R	Enter the treating dentist's business phone number (area code and number).
58	Additional Provider ID	C	If entering the treating provider's Medicaid provider number, enter it in this field preceded by the qualifier code 1D (qualifier code 1D stands for Medicaid provider number). Do not enter a space, hyphen, or other separator between the qualifier and

4.5.2 Claims Submission Checklist

Use the following checklist before submitting a paper claim to HP Enterprise Services for reimbursement.

- Is the form typed or printed in black ink?
- Is the form legible?
- Were instructions in the manual followed? Some items are not self-explanatory or may be used for other purposes.
- Are the provider's name and number entered?
- Is the claim signed and dated? Unsigned claims will be returned unprocessed.
- Are attachments required? Claims cannot be paid without the required attachments.
- Is the PA number included in field locator 2 on the 2006 ADA Dental for services that require PA from Medicaid? Without this number, payment will be denied.
- Is the P.O. Box number for submitting the claim correct?
Note: See Where to Send Claim Forms in section 4.6.4 for a complete list of addresses to submit claims and other forms.

If your questions are not answered in this manual, call HP Enterprise Services Provider Services Contact Center at 1-800-766-4456 and select option 0. The Provider Services Contact Center is available Monday – Friday, 7:00 a.m. to 7:00 p.m. Eastern Standard Time.

4.5.3 Claims Mailing Checklist

The following checklist may be used when mailing claims to HP Enterprise Services for reimbursement.

- Enclose only one claim type per envelope, i.e., clean 2006 ADA Dental, adjustment 2006 ADA Dental, or void 2006 ADA Dental. Claims and adjustment requests should be sent separately, because they are processed separately at HP Enterprise Services.
- The claims envelope should be addressed to the correct P.O. Box and corresponding nine-digit ZIP code specific to the claim type being mailed. Printed addresses speed up post office processing.
- Claims mailed in a large envelope or flat should be marked first class and paid for as first class postage. If first class is not specified, the post office will send large envelopes as third class mail. This will delay delivery of claims to HP Enterprise Services.

4.5.4 Where to Send Claim Forms

Claim Type	Address
Original or Resubmitted ADA 2006	ADA Dental Claims P.O. Box 105205 Tucker, Georgia 30085-5205

4.6 Electronic Claim Submission

4.6.1 Introduction

Submitting Medicaid claims using electronic media offers the advantage of speed and accuracy in processing. Providers may submit electronic claims themselves or choose a trading partner or clearinghouse that offers electronic claim submission services.

4.6.2 Benefits

The benefits of electronic claims submission include:

- Increased speed of claims payments; seven days in some cases
- Correct data entry errors immediately, avoiding mailing time and costs
- Eliminate the cost and inconvenience of claims paperwork
- Reduce office space required for storing claim forms, envelopes, and so on
- Decrease clerical labor costs
- Automate the office for a more efficient operation

4.6.3 How to Participate in Electronic Claims Submission

In order to submit electronic claims, a provider and/or their representative/billing agent must be authorized. The authorization process requires the submission of the Electronic Data Interchange (EDI) Agreement Form, issuance of a trading partner ID, and testing to ensure the trading partner can accurately submit transactions.

The EDI Services team is available each weekday (excluding state holidays), Monday through Friday from 8:00 a.m. - 5:00 p.m. Eastern Standard Time at 1-877-261-8785 or using e-mail at ediservices.gammis@hp.com.

4.6.4 Free Software and Electronic Claims Submission Options

DCH strongly encourages electronic submission of claims and most other transactions.

HP Enterprise Services supports several types of data transport depending upon the submitters needs. Providers and their representatives submit and receive data using: Web Portal, Provider Electronic Solutions (PES) software, Remote Access Server (RAS), diskette/CD-ROM/tape/DVD (in special situations only), Secure File Transfer Protocol (SFTP). In addition, vendors may enroll as Value Added Networks (VANs) for (fee-based) interactive eligibility transactions.

The following sections provide an overview for each of the EDI submission methods.

4.7 Web Portal

Data is transmitted using the secure Web Portal. Submission options are Direct Data Entry (DDE) and Batch. The GAMMIS Web Portal (as a single gateway) is an important tool providing general and program specific information and links to other programs, applications, related agencies and resources. The Web Portal has both secure and non-secure areas.

The Web Portal is available to customers 24 hours per day, seven days per week. To access the Web Portal, visit www.mmis.georgia.gov. For more information concerning Web Portal usage and registration, see the Provider Web Portal Navigational Manual for additional details, which is located on our website www.mmis.georgia.gov on the Provider Manuals page found under the Provider Information menu.

Web Portal Overview

Georgia Medicaid's Web Portal solution provides communication, data exchange, and self-service tools to the provider and member community. The Portal consists of both public and secure areas (web pages requiring a username and password). The public area contains general information, such as program awareness, notices, and forms, and allows users to respond to surveys. Providers can also apply to be a Georgia Medicaid and Georgia Better Healthcare (GBHC) provider online using the provider enrollment wizard, which includes the ability to track their application through the enrollment process. Once enrolled in Medicaid, providers can access their personal information using their provider number and Personal Identification Number (PIN).

REPORT FRAUD

4.7.1 Web Portal Reference Updates

Reference updates or changes regarding EDI issues or compliance edits are posted to the Web Portal by the EDI Services or EDI Systems team to alert all providers, trading partners, and third-parties of any issues that may impact electronic production of claims and other critical system maintenance issues, and future enhancements (for example, implementation of International Classification of Diseases-10 (10th revision)-Clinical Modification (ICD-10CM) diagnosis and procedure codes).

4.7.2 Web Portal Password Management

Step 1: Access the public Web Portal at: www.mmis.georgia.gov.

Step 2: Click the "Login" button on the public Web Portal Home page.

Step 3: Enter the **Username** and **Password** for the registered account you wish to act as and click "Sign In."

A screenshot of the Georgia Medicaid login page. On the left, there is a section titled 'Sign in to the Georgia Medicaid' with a list of links: 'Access your applications', 'Manage your account', 'Change your password', and 'Submit Authorizations'. Below this, there is a link for 'Office Administrator' to register. On the right, there is a login form with fields for 'Username' and 'Password', a 'Sign In' button, and a 'Forgot your password?' link.

Please Note: If the password has been forgotten or has already expired, click the "Forgot your password?" link on the log in page and enter the e-mail address and user name created during the registration process. If the username has been misplaced, please navigate to the public Web Portal (www.mmis.georgia.gov) and click the Provider Information menu for methods on contacting EDI Services for further assistance.

A screenshot of the Georgia Medicaid login page, identical to the one above. However, the 'Forgot your password?' link at the bottom of the login form is circled in red.

Step 4: If the log in was successful, click "MEUPS Account Management."

Good afternoon

Please select a button above to view or edit your account.

Step 6: Complete the fields displayed and click "Change Password." Make sure your new password conforms to the format indicated on the screen.

Change Password

Fill out the form below to change your password. Your new password must:

- Have a length of at least 8 characters
- Contain three of the following: special character, number, lowercase letter, uppercase letter.
- Not repeat a previous password for this account

Old Password	<input type="password"/>
New Password	<input type="password"/>
Password (verify)	<input type="password"/>

4.7.3 Web Portal Support

In addition to providing EDI support, the EDI Services team will also assist with all Web Portal technical support questions including all Web Portal problems that members, providers, and provider office administrators/billing agents may have accessing the Web Portal, and registering for the Web Portal.

Note: The Provider Services Contact Center assists all providers with non-EDI and non-technical issues regarding the Web Portal, including where to locate specific information, forms, and provider manuals.

The Member Services Contact Center assists all members with non-EDI and non-technical issues regarding the Web Portal, including Web Portal password resets, where to locate pamphlets, forms, and coverage limitations.

4.7.4 Direct Data Entry (DDE) Transmissions Using the Web Portal

Direct Data Entry (DDE) allows providers to submit individual transactions one transaction at a time, with no limitations on the number of transactions that can be submitted using the Web Portal.

Note: DDE is not available for NCPDP (Encounters).

4.7.5 Upload Batch Transmissions Using the Web Portal

A trading partner has the option to upload HIPAA based transactions such as a batch of claims or eligibility request or non-HIPAA transactions via the Web Portal for processing in the MMIS. All claims must be in the HIPAA compliant format (i.e. X12 837-Professional, 837-Institutional, or 837-Dental). A batch may contain one claim transaction or many.

Trading partners log on to the secure Web Portal, navigate to the Trade Files menu option, and upload a file. The following screen displays:

Date Uploaded	Tracking Number	File Name	Description
12/29/2008	56215	Eligibility.txt	Elig upload on 12/29
12/29/2008	56215	Eligibility.txt	Uploaded by Ron Jones
12/30/2008	56215	Eligibility.txt	
12/31/2008	56215	Eligibility.txt	Duplicate from 12/30
12/31/2008	56215	837p.zip	

The file is validated against the Georgia Medicaid Companion Guides and the user receives one or a combination of three different acceptance and rejection reports, TA1, 997, 824, or 277U.

1. TA1 - The TA1 Acknowledgement is a means of replying to an interchange or transmission that has been sent. The TA1 verifies the envelopes only. The TA1 segment provides the capability for the receiving trading partner to notify the sending trading partner of problems that were encountered in the interchange control structure.
2. 997 – The X12N 997 contains accept or reject information. If the file contained syntactical errors, the segments and elements where the error

occurred are reported on the rejected 997. If no errors are found, a 997 transaction is sent to acknowledge receipt and acceptance of the transaction.

3. 824 - The X12N 824 contains accept or reject information for X12N 837 input files. It will report errors that are outside the scope of the X12N 997. If the input file contained errors, the segments and data elements where the error occurred are reported on the 824. The 824 will have an action code of "RU" if the incoming file was partially accepted, "U" if the incoming file was entirely rejected or "WQ" if the incoming file was entirely accepted.
4. 277U – The X12N 277U is returned for all suspended claims. In addition, the 277U is used to communicate claims where a provider record cannot be determined (primarily related to NPI mapping activities).

If the file passes compliance, it is sent to GAMMIS for processing.

Notes regarding file specifications:

1. EDI allows upload and download of zip files. However, only one file per zip is allowed.
2. EDI does not require any specific file extensions. This includes files without any extension.
3. EDI allows up to a two-gigabyte file to be uploaded.

4.7.6 Download Transmission Reports and ERA Using the Web Portal

Providers log on to the secure Web Portal, navigate to the Trade Files menu option, and download a file. The type of file is displayed under 'document type'. This includes all reports, HIPAA transactions (i.e. 820's and 835's) and electronic remittance advices. Additionally, authorized users can download non-HIPAA files.

4.8 Remote Access Server (RAS) Dial-Up Transmission

The RAS enables providers to access all options of the secure Web portal without the use of an Internet Service Provider. This option is available to users who do not have an existing Internet connection. The RAS server typically supports users that need a dial-up option. Trading partner data transmitted using the RAS can be transmitted the same as the Internet secure site using DDE or upload batch transactions.

After the connection is established, the landing page is presented. A user either logs on and is presented with their secure provider page, or selects 'register' if they are a first-time user.

Once logged on, the user will have access to the various secure Web portal options, including File Upload and File Download for EDI transactions.

4.9 Secure File Transfer Protocol (SFTP)

SFTP uses Secure Shell (SSH) to encrypt and then securely transmit data across a potentially unsecured connection. Functionally SFTP (required) is similar to FTP, but

offers protection to sensitive data. Secure Shell or SSH is a network protocol that allows data to be exchanged using a secure channel between two networked devices.

This option allows provider, vendors, and all other trading partners to transfer claim files to HPES using the secure file transfer protocol server. Trading partners must notify us specifically if wishing to use this transmission method to transmit files.

HPES requires that the SFTP submitters send their public key and HPES exchanges its public key with the submitter for encryption purposes. HPES will setup a username and password for the submitter to access the server. Along with using SFTP, HPES requires that each file being transmitted over SFTP should be encrypted using PGP public-private key encryption because PHI data sits on DMZ zone for certain period. To achieve this HP Enterprise Services requires that the SFTP submitters exchange their PGP public key with HP Enterprise Services.

Note: Additional detailed information on the panels, steps, and processes using the SFTP server can be found in the SFTP Setup and Data Transfer Requirements guide.

4.10 Provider Electronic Solutions (PES)

HPES provides free software called Provider Electronic Solutions (PES) for the submission of claim transactions. The system PC minimum requirements for PES are Windows 2000 or higher. This software complies with HIPAA requirements and is available to all providers who wish to submit claims electronically. The HIPAA-ready manuals available for billing Georgia Medicaid using PES include:

1. 837 Professional
2. 837 Institutional (Inpatient and Outpatient Hospital)
3. 837 Dental

Georgia Medicaid providers can download a copy of the PES software from the Web Portal, have it sent using e-mail, or request a copy from the EDI Services to receive a CD through the United States Postal Service (USPS). A user manual, installation guide, and the initial password to access the PES application comes with the software. The EDI Services team will assist and answer any immediate questions or refer providers needing additional training to the Provider Relations team.

Note: For additional information regarding specific PES procedures and functionality, please locate the PES Manuals located on our website at www.mmis.georgia.gov under EDI, Software and Manuals. Each transaction has its own PES manual on the website, for the following services: Professional Claims (CMS-1500) Billing, Dental, and Inpatient and Outpatient Institutional (UB-04) claims. Refer to Appendix D regarding instructions on downloading and installing PES along with the PC system requirements. This manual will also include panels and billing instructions.

4.11 Value Added Networks (VANS)

VANS support interactive transactions for established vendors. VANS sign contracts with the State and set up unique VAN-specific communication arrangements with HP Enterprise Services.

4.12 Diskette/CD-ROM/DVD/Tape

Providers experiencing technical connection issues can mail a labeled copy of the EDI claims file downloaded on a CD-ROM, tape, or diskette. HPES does not anticipate that most providers will typically need to submit EDI transactions using diskette/CD-ROM/DVD/tape.

Note: This option is reserved for special instances where the provider is having critical internet connection issues preventing them from accessing the Web Portal or server. The CD-ROM/diskette must be labeled to identify the trading partner and instructions on where to locate the EDI file for upload or it will be returned as unprocessed to the provider.

Providers are responsible for correcting any connection issues to resume transmitting claims using the normal transmission methods (Web Portal, RAS, PES, or VANS). Refer to Appendix B for detailed handling procedures in the event HPES receives a diskette/CD-ROM/tape.

4.13 How to submit a Dental Claim on the Web Portal

The Dental Claim page allows providers, payees, and billing agents to view dental claims which have processed with Georgia Medicaid. Rendering providers and billing agents acting as rendering providers may use the dental claim page to submit a claim and/or adjust or void a paid claim. This includes the ability to copy a paid claim or modify a denied claim that can be sent to Georgia Medicaid and processed as a new claim. Payees and billing agents acting as payees will be restricted to read-only access.

Attachments can be included as part of the web submission process. The ability to upload an electronic attachment is provided once the user submits the claim with a transmission type of electronic upload. If the response indicates the claim will be suspended for attachments, the upload ability will be provided for the user to attach their electronic file with the claim.

Providers and billing agents will automatically be restricted to viewing claims that have been processed with their provider ID as the rendering or payee provider. Billing agents may use the switch provider page to select and navigate on the web portal using a different provider ID account to view the appropriate claim.

Navigational Path: Claims – New Dental Claim

4.13.1 Creating a New Dental Claim

Note: Fields marked with an asterisk are required. Otherwise, the field is optional.

Step	Action	Result
I. Dental Claim		
1	Select Rendering Taxonomy from the drop-down list.	
2	Enter Member ID*.	
3	Enter the Member's Last Name*.	
4	Enter the Member's First Name*. Please note MI (middle initial) is an optional field.	

Step	Action	Result
5	Enter Date of Birth*.	
6	Select Gender from the drop-down list*.	
7	Enter Patient Account #.	
8	Enter PA/Pre-cert Number.	
9	Enter Referral Number.	
10	Select Release of Information from the drop-down list*.	
11	Select Related Causes Code 1 accident related cause indicator from the drop-down list.	
12	Select Related Causes Code 2 accident related cause indicator from the drop-down list.	
13	Select Accident State from the drop-down list.	
14	Enter Accident Date.	
15	Select EPSDT from the drop-down list.	
16	Enter POS or click [Search] to select from list*. Clicking [Search] activates the Place of Service Search panel.	
17	Enter Patient Responsibility.	
II. Other Payer Claims Data Optional unless Third Party Liability (TPL) information needs to be indicated against the claim. Must click add to activate the panel before anything can be entered or selected.		
1	Select Claim Filing from the drop-down list*.	
2	Select Relationship to Insured from the drop-down list*.	
3	Enter policy holder Last Name*.	

Step	Action	Result
4	Enter policy holder First Name*. Please note MI (middle initial) is an optional field.	
5	Select Payer Resp* from the drop-down list.	
6	Enter Authorization Number.	
7	Enter Payer Identifier*.	
8	Enter Insurance Company Name.	
9	Enter Group Name.	
10	Enter Group or Policy Number.	
11	Select Insurance Type Code from the drop-down list.	
12	Enter Paid Date.	
13	Enter Paid Amount.	
III. Other Payer Adjustment Information Section Optional unless Third Party Liability (TPL) coinsurance, deductibles, etc, needs to be indicated against the claim. Must click 'add' to activate the panel before anything can be entered or selected		
1	Select Claim Adjustment Group Code from the drop-down list*.	
2	Enter Adjustment Reason Code*.	
3	Enter Adjustment Amount.	
4	Enter Adjustment Quantity.	
IV. Detail Panel Must click 'add' to activate the panel before anything can be entered or selected.		
1	Enter Date of Service*.	
2	Enter POS.	
3	Enter Procedure or click [Search] to select from list*. Clicking [Search] activates the Procedure Search panel.	

Step	Action	Result
4	Enter Tooth Number or click [Search] to select from list. Clicking [Search] activates the Tooth Number Search panel.	
5	Enter Quadrant or click [Search] to select from list. Clicking [Search] activates the Quadrant Search panel.	
6	Select Surface 1 from the drop-down list.	
7	Select Surface 2 from the drop-down list.	
8	Select Surface 3 from the drop-down list.	
9	Select Surface 4 from the drop-down list.	
10	Select Surface 5 from the drop-down list.	
11	Enter PA/Pre-cert Number.	
12	Enter Modifier 1 or click [Search] to select from list. Clicking [Search] activates the Modifier Search panel.	
13	Enter Modifier 2 or click [Search] to select from list. Clicking [Search] activates the Modifier Search panel.	
14	Enter Modifier 3 or click [Search] to select from list. Clicking [Search] activates the Modifier Search panel.	
15	Enter Modifier 4 or click [Search] to select from list. Clicking [Search] activates the Modifier Search panel.	
16	Enter Units*.	
17	Enter Charges*.	

Step	Action	Result
18	Click add in Detail section to add another service line and repeat the steps in section IV.	Activates fields for entry of data or selection from lists.
V. Hard Copy Attachments Optional unless attachment information needs to be included against the claim. Must click 'add' to activate the panel before anything can be entered or selected.		
1	Enter Control number*.	
2	Select Transmission from the drop-down list*. Note: Submitting a claim with a transmission type of Electronic Upload allows the claim to suspend for needing an attachment if all other edits are bypassed. Once suspended for needing an attachment, the upload button is available on the Hard-Copy Attachments panel to begin attaching the appropriate .jpg, .jpeg, .pdf or .tiff file against the assigned ICN.	
3	Select Report Type from the drop-down list*.	
4	Click submit.	The dental claim is submitted and an ICN is assigned.

4.13.2 Adjusting a Dental Claim

Step	Action	Result
Start from the secured Claims menu.		
1	Select the Search (Void, Adjust) submenu.	The Claim Search panel displays.
2	Enter the appropriate search criteria.	
3	Click Search.	The search results panel displays.
4	Select the dental ICN to be adjusted.	The dental claim is displayed in detail.
5	Click in the field(s) to update and perform update.	

Step	Action	Result
6	Click adjust and OK to confirm the request.	The adjustment is submitted and the new daughter claim ICN and information is displayed. Note: If the adjustment is rejected, a new ICN beginning with "20" will appear with the appropriate denial reasons displayed on the EOB Information panel.

4.13.3 Voiding a Dental Claim

Step	Action	Result
Start from the secured Claims menu.		
1	Select the Search (Void, Adjust) submenu.	The Claim Search panel displays.
2	Enter the appropriate search criteria.	
3	Click Search.	The search results panel displays.
4	Select the dental ICN to be adjusted.	The dental claim is displayed in detail.
5	Click void and OK to confirm the request.	The void is submitted and the new daughter claim ICN and information is displayed. Note: If the void request is rejected, a new ICN beginning with "20" will appear with the appropriate denial reasons displayed on the EOB Information panel.

4.13.4 Submitting Attachments Using Web Portal

Attachments can be included as part of the Web submission process. The ability to upload an electronic attachment is provided once the user submits the claim, through the Web Portal, with a transmission type of electronic upload. If the response indicates the claim will be suspended for attachments, the upload ability will be provided for the user to attach their electronic file with the claim. If you are unable to submit attachments using the Web Portal - see Appendix C-2, Attachment form for Electronically Submitted Claims.

4.13.5 How to Download the RA from the secure Web Portal

This produces a print image of the paper RA. All providers will have access to a PDF version of their paper RA. This is not the X12N 835 transaction. An 835 transaction is available to providers and trading partners that request it.

To access the PDF version of the RA:

1. Log on to the secure Web site.
2. Navigate to the Reports menu option and select the financial reports sub-menu.
3. Complete the Reports search panel and click search to review the available RAs within the time period requested.
4. To begin the download process, click the file name of the desired files to download.
5. To download the report, click Save.
6. The Save As dialog box opens. Save the file to a local directory. The files may be renamed if desired, but it is not necessary to do so.
7. Click Save.
8. When the download process is complete, the download dialog box prompts to Open or Close the file. This is at the user's discretion.

This page intentionally left blank.

5 Claims Processing

5.1 Introduction

Claims for Medicaid reimbursement are processed by HP Enterprise Services. This chapter describes claims processing and gives the provider information about remittance advice and how to obtain help with claims processing.

5.2 Claims Processing

5.2.1 Paper Claim Handling

When HP Enterprise Services receives a paper claim, it is initially screened for missing information and necessary attachments. If information or documentation is missing, the claim will not be entered into the GAMMIS. It will be returned to the provider with a Mail room Return to Provider (RTP) letter (see Appendix C.8) that will state the reason the claim is being returned. The provider must correct the error, attach any missing documentation, and return the claim to HP Enterprise Services for processing. Claims are returned when they cannot be processed for payment.

Examples of missing information required for processing claims include:

- Missing signatures
- Print or ink too light to microfilm
- Incorrect/incomplete attachments
- Incorrect claim type
- Provider number incomplete or missing

5.2.2 Claim Entry

Data entry operators image and key into the GAMMIS each paper claim that passes initial screening. Electronic claims are loaded by batch into the GAMMIS.

5.2.3 Claim Adjudication

The GAMMIS analyzes the claim information and determines the status or disposition of the claim. This process is known as claim adjudication.

5.3 Remittance Advice (RA)

5.3.1 Description

Medicaid and Medicaid/Medicare crossover claims which are paid, denied, adjusted, or placed in-process by the Division will be listed on the RA. The information contained on the RA is intended to assist the provider in reconciling Medicaid accounts and to assist the Division in guarding against false or erroneous billings. RAs will be provided to providers through the mail or the provider's Message Center on HP Enterprise Services Web Portal at www.mmis.georgia.gov. The electronic RAs are available in a HIPAA-compliant format and a PDF version of the paper RA.

5.3.2 Role of the RA

The RA plays an important role in communications between the provider and Medicaid. It tells what happened to the claims submitted for payment – whether they were paid, denied, in process, or adjusted. It provides a record of transactions and assists the provider in resolving errors so that denied claims can be resubmitted.

The RA must be reconciled to the claim in order to determine if correct payment was received. The date on the first line of each page is the date the financial cycle began, e.g., Friday. The issue date is the date the check was mailed to the provider or an electronic funds transfer (EFT) was sent to the bank for transmission.

The RA contains one or more of the following sections depending on the type of claim filed, the disposition of those claims, and any new billing or policy announcements. Each section starts on a new page:

1. RA Banner Page Message which will be included on every RA
2. Claim Statuses: Paid, Denied, In Process (includes suspended claims), Adjusted
3. Financial Transactions
4. Summary Section which will be included on every RA
5. EOB Reason Code Description

5.3.3 RA Banner Message

When Medicaid or HP Enterprise Services discovers billing problems encountered by all or select provider types, a RA banner message is printed as the first page of the advice. Suggestions for avoiding problems, explanations of policy, and new or changed procedure codes are described. Training sessions are also announced on the RA banner page.

5.3.4 Claim Statuses

Paid Claims: The RA will list each claim paid, the date of service, the amount paid for each service on the claim, and the total amount paid for each claim. Some paid claims may have disallowed lines. These disallowed lines are actually denied charges and may be resubmitted. The reason for the disallowance is listed to the left of the line that was disallowed.

Note: Same claims in paid status may have paid zero dollars.

In Process (includes Suspended claims): This RA will identify claims that require further research, evaluation, or other action by the Division before they can be paid or denied. As long as a claim is suspended, it is not necessary for a provider to submit a duplicate claim. The Pending Claims section will reflect only those claims that have been entered into the Division's computer system. Claims that have been received by HP Enterprise Services but are still being prepared for computer entry will not be shown. It is the responsibility of the provider to ensure that each and every claim is received by HP Enterprise Services within applicable deadlines for submission and resubmission. If a claim does not appear as pending, or if a claim

ceases to appear on the pending report and the provider is not aware of its payment or denial, the provider bears the responsibility for inquiring about the claim's status and taking appropriate action.

Denied Claims: The RA indicates the adjustment reason code(s) and remark code(s) which determine why a particular claim or service could not be paid. The denial of a claim constitutes the termination of the transaction between the Division and the provider for the services billed. Any reconsideration for payment must be initiated by the provider through a new claim. If the provider does not intend to resubmit the claim, the charges for the services should be written off any accounts receivable records maintained by the provider since no further action will be taken by the Division.

Adjustments: The RA will indicate positive adjustments to previous payments made to the provider and negative adjustments resulting from rate changes, retrospective review, or other actions by the provider or the Division.

5.3.5 Financial Transactions

The RA will indicate refund adjustments, recoupments subtracted from the amount payable, voluntary refunds by the provider, and lump sum payouts.

5.3.6 Summary Section

The Summary Section is used to denote the total of all claims for the provider's RA including Claims Data, Earnings Data, and Current Deductions. The total capitation payment is included on the summary page.

5.3.7 EOB Reason Code Description

The Explanation of Benefits (EOB) Reason Code section contains an explanation for all EOB codes and reason codes shown on all previous pages of the RA.

All claims for each provider that are entered in the GAMMIS during the weekly cycle are listed on a RA. Following are examples of each type of 2006 ADA Dental RA and the field descriptions.

Figure 16: Sample RA Summary

[illegible]

Page 58

Field Title ID	Field Title	Field Title Description
1	RA #	RA Number is a unique identifier assigned to the remittance advice.
2	Payee Name	The Name of the Payee displayed above the Address.
3	Address	The 'Pay To' mailing address of the Payee. Displayed in the upper left corner of the remittance advice.
4	Payee ID	This is the unique identifier for the billing entity receiving payment or remittance activity.
5	NPI ID	This is the National Provider ID number that is associated with the provider on the remittance advice.
6	Payment Number	If a check was generated, this is the check number corresponding to the check that was generated. If the provider is an EFT participant, this is the control number of the EFT transaction.
7	Issue Date	This is the date the payment was issued.
8	Rendering Provider	The identifier of the provider that performed the service (i.e. prescribed the drug, performed the dentistry, etc.).
9	Rendering Provider MCD	The Medicaid ID of the rendering provider.
10	Rendering Provider NPA	The NPI ID of the rendering provider.
11	Rendering Provider Name	The name of the rendering provider.
12	ICN	Internal Control Number (ICN) is a unique number used to identify and track a claim processed through the system. Format is RRYJJBBBSSS where RR is region, YY is year, JJJ is Julian day, BBB is batch, and SSS is claim sequence.
13	Member ID	The unique Medicaid identifier of the beneficiary (member).
14	Member Name	The name of the beneficiary (member) identified on the claim.
15	Billed Dte	Date on which the provider or billing service prepared the claim form to be submitted.
16	P Auth No	This is the number assigned by the PA unit to a Prior Authorization request.
17	Patient Number	The Patient Control Number is a unique number

Field Title ID	Field Title	Field Title Description
		assigned by the provider. This is usually used for filing or tracking purposes.
18	COS	Code for the State category of service (COS) that defines the grouping of services appearing on State MAR reports.
19	From Dte (Header)	This is the earliest date of service or admission date for the claim.
20	Thru Dte (Header)	This is the latest date of service or discharge date for the claim.
21	Billed (header)	This is the dollar amount requested by the provider for the claim. The Header Billed Amount is arrived at by adding the Detail Billed Amounts on all the detail lines.
22	Allowed (header)	This is the computed dollar amount allowable for the claim. The header amount is arrived at by pricing each of the individual details and adding up the individual prices.
23	Copay/Deduct	The dollar amount of member responsibility on a claim that is to be collected by the provider at the time the service is rendered. Copay is used interchangeably with coinsurance. The Header Copay Amount is arrived at by adding the Detail Copay Amounts on all the detail lines.
24	Pt Liab	Amount member is responsible to pay for services rendered.
25	COB (Header)	TPL Amount is the dollar amount paid by sources other than the state Medical Assistance Program being billed. If present, this amount is subtracted from the allowed amount.
26	Total Paid	This is the dollar amount that is payable for the claim.
27	Adj Rsn	Adjustment Reason is the EOB code entered when the claim was adjusted, indicating the reason for initiating the claim adjustment.
28	Voided Claim Indicator	This field contains *VOID* when the adjustment claim voids the original claim.
29	Header EOBS	These are the Explanation of Benefits (EOB) codes that apply to the claim or adjustment header. These codes are used to explain how the claim or adjustment was processed or priced. There could be a maximum of 20 EOB codes. For each "EOB", the RA will display the System EOB Code, the corresponding HIPAA Adjustment Reason Code and the cutback amount. Each

Field Title ID	Field Title	Field Title Description
		"EOB" will be variable in length, from 4 to 23.
30	LNN	The number of the detail on a claim record.
31	From Dte (Detail)	This is the earliest date of service or admission date for the claim detail.
32	Thru Dte (Detail)	This is the latest date of service or discharge date for the claim detail.
33	POS	This is the place of service.
34	Spec	Code which indicates the scope of practice or operations of the billing provider.
35	Proc Code	This is the code used to indicate what services were actually rendered to the member by the provider.
36	M1 M2 M3 M4	This column shows the modifiers used to further describe the service rendered. Up to four modifiers may be entered on each detail line.
37	Tooth	This column shows the tooth number of the tooth that was worked on.
38	Surface	This shows the surface code pertaining to the part of the tooth that was worked on.
39	Quad	The quadrant of the mouth that the procedure on the claim is related to.
40	Billed (Detail)	This is the dollar amount requested by the provider for the item billed on each detail line.
41	Allowed (Detail)	This is the computed dollar amount allowable for the detail item billed.
42	COB (Detail)	TPL Amount is the dollar amount paid by sources other than the state Medical Assistance Program being billed. If present, this amount is subtracted from the allowed amount.
43	Paid	This is the dollar amount that is payable for the claim.
44	Detail EOBS	These are the Explanation of Benefits (EOB) codes that apply to the claim detail lines. There could be a maximum of 20 EOB codes per detail line. For each "EOB", the RA will display the System EOB Code the corresponding HIPAA Adjustment Reason Code and the cutback amount. Each "EOB" will be variable in length, from 4 to 23.

Field Title ID	Field Title	Field Title Description
45	Status	The claim line item status: PAID, DENY, SUSP.
46	Addnl Rmrk Codes	This is a continuation of the Detail EOBs in the event that they do not all fit in the Detail EOB space.
47	Duplicate DTL	The number of the detail line that was a duplicate of the detail shown. This field is only shown when the claim detail was denied because there was a duplicate claim detail.
48	Duplicate ICN	The ICN of the claim that was a duplicate of the claim shown. This field is only shown when the claim header or detail was denied because there was a duplicate claim header or detail.
49	Prev Paid Dte	The previous paid date of the claim that was a duplicate of the claim shown. This field is only shown when the claim was denied because there was a duplicate claim.
50	NDC Code	When there is a J-code procedure code then the NDC will be displayed under the Modifiers section of the claim detail. The National Drug Code is comprised of a five-byte numeric labeler code, four-byte numeric product code, and a two-byte numeric package code. Used to uniquely identify a drug, its labeler and package size of a product for pricing and service/prior authorization.
51	Additional Payment	This is an additional payment.
52	Net Amount Owed To State	This is the additional amount owed by a billing provider as the result of a claim adjustment. If this amount cannot be recovered in the current cycle, an accounts receivable record is generated.
53	Provider Refund Amount Applied	The Refund Amount Applied is the amount of a cash receipt received from the provider applied to a cash related claim adjustment.
54	Total Dental Claim Adjustments	This is the grand total dollar amounts for this section of the remittance report.

5.5 How to Resubmit a Denied Claim

Check the RA before submitting a second request for payment.

Claims may be resubmitted for one of the following reasons only:

1. The claim has not appeared on a RA as paid, denied, or suspended for 30 days after it was submitted.
2. The claim was denied due to incorrect or missing information or lack of a required attachment.

Do not resubmit a claim denied because of Medicaid program limitations or policy regulations. Computer edits ensure that it will be denied again.

Resubmitted claims must be original claims, not copies.

If the claim does not appear on a RA within 30 days of the day the provider mailed it, the following steps should be taken:

1. Check recently received RA dates. Look for gaps. A RA may have been mailed but lost in transit. If the provider believes this is the case, call HP Enterprise Services Provider Services Contact Center at 1-800-766-4566 and select option 0.
2. If there is not a gap in the dates of RA received, please call HP Enterprise Services Provider Services Contact Center at 1-800-766-4566 and select option 0. A representative will research the claim.
3. If HP Enterprise Services advises that the claim was never received, please resubmit another claim immediately. See the Resubmission Checklist on the following page.

If the claim has denied for incorrect or missing information, correct the errors prior to resubmitting the claim.

5.5.1 Resubmission Checklist

Use the following checklist to ensure that resubmittals are completed correctly before submitting.

1. Did you wait 30 days after the original submittal before resubmitting a missing claim?
2. When completing a new claim, did you type or print the form in black ink? Are all multi-part copies legible?
3. If you have corrected or changed the original claim form, have strikeouts been corrected on each copy? Do not use whiteout.
4. Has the resubmitted claim been signed again and dated?
5. Have you included all required attachments and documentation with the claim form?

6. Is the claim clean of all highlighting and whiteout?
7. Do you have the correct P.O. Box number and corresponding nine-digit ZIP code for mailing the resubmitted claim? Resubmitted claims should be sent to the same P.O. Box as the original claim.

Do you have any questions about resubmitted claims that are not answered in this manual? If so, please contact HP Enterprise Services Provider Contact Services Center at 1-800-766-4566 and select option 0.

5.6 When to Submit an Adjustment and Void

The adjustment and void process allows any adjudicated individual or multiple claims to be adjusted or reprocessed due to a rate change or a claim data error. Paid claims are adjusted and denied claims are reprocessed. Adjustments may be submitted by DCH, by the provider, or can be system generated resulting in an adjudicated claim with updated data. The end result for a void is a denied claim. Refer to the Policy and Procedures Manual, Part I, section 205 for more information.

5.6.1 Adjusting an Incorrect Payment

A provider who receives an incorrect payment for a claim or receives payment from a third party after Medicaid has made payment is required to submit an adjustment or a void to correct the payment. Refer to the Policy and Procedures Manual, Part I, section 205.

5.6.2 Adjustment

An adjustment is needed if the correction to the payment would result in a partial refund or the claim was underpaid. Only paid claims can be adjusted. Adjustment requests must be received within three months following the month of the Medicaid payment. The payment date is reflected in the date located in the top right hand corner of the RA page. When an adjustment is performed, the original claim is voided resulting in the recovery of the entire paid amount. A new claim, the adjustment claim, is then created in the system, which incorporates the necessary requested changes and repays the provider for the services rendered. A paid claim can only be adjusted once due to this void and recovery process; however, an adjustment can be requested to the adjustment claim if additional changes are needed.

5.6.3 Void

A void is needed if the correction to the payment would result in a complete refund of the Medicaid payment to HP Enterprise Services **for the following reasons:**

- A provider was overpaid for a claim.
- A provider was not reimbursed for the correct amount.
- The individual receiving treatment, listed on the RA, is not a patient of the provider who received the RA.
- A payment was received by the wrong provider, and the payment is returned.
- A claim was paid to the provider twice.

- A check was paid to a provider who does not belong to the group or has left the group.
- The payment was inappropriately made payable to the wrong location or provider identification number.

5.7 Financial Summary Page Adjustment

5.7.1 Adjusting a Paid Claim

You must submit an Adjustment Request form or adjust the claim using the Web Portal to correct the claim payment when:

- An inaccurate claim payment is received.
- A payment was received from a third party after Medicaid has paid.

If you submit on paper, the Adjustment Request form must be submitted for each claim to be adjusted. The adjustment request must be submitted with a copy of the RA that corresponds to the claim payment.

Mail all Adjustment Request forms to:

HP Enterprise Services

Attn: Adjustment Request

P.O. Box 105206

Tucker, GA 30085-5206

5.7.2 Refund Adjustments Due to Error

You should use a personal/company check to refund a Medicaid overpayment. If the overpayment is due to an error on the claim, then you can include a completed Adjustment Request form with the overpayment refund. The completed form should include, within the narrative, the correct data to be applied to the claim.

5.7.3 Refund Adjustments Due to Third-Party Overpayment

You must refund payments that were received from a third party after Medicaid had already paid the claim. Adjustments can also be done on the Web, creating a receivable against future payments. A refund is due within 30 days after the provider received the overpayment. Along with the refund check, the provider should also send these three items:

- A completed Adjustment Request form
- A copy of the Medicaid RA that corresponds to the claim payment
- A copy of the RA received from the third party

All refund checks and accompanying documentation must be mailed to the following address. Providers and hospitals use separate addresses.

Provider

Bank of America

Lock Box 277941

Atlanta, GA 30384

5.7.4 Filing Limitation

Adjustment requests must be received within three months following the month of Medicaid payment. The payment date is reflected in the date located in the top right hand corner of the RA page. Only paid claims can be adjusted. When an adjustment is performed, the original claim is voided resulting in the recovery of the entire paid amount. A new claim, the adjustment claim, is then created in the system, which incorporates the necessary requested changes and repays the provider for the services rendered. A paid claim can only be adjusted once due to this void and recovery process; however, an adjustment can be requested to the adjustment claim if additional changes are needed. Refer to the Adjustment Request Form (DMA-501) in section 5.9 for instructions on how to complete it.

5.7.5 Adjustment of Inaccurate Medicare/Medicaid Payments

To appeal the amount paid for services for Medicaid/Medicare members, notify the appropriate Medicare Fiscal Intermediary of your appeal. Any additional payment is through both Medicare and Medicaid. If the payments are made to an incorrect provider or are above the amount due, return the erroneous checks or issue refunds to Medicare and to Medicaid for their respective shares. Any erroneous Medicaid payments or refunds due to DCH must be forwarded to the following address:

Provider

Bank of America

Lock Box 277941

Atlanta, GA 30384

Adjustment Request Form

HP Enterprise Services

P.O. Box 105206

Tucker, GA 30085-5206

5.8 Adjustment Request Form (DMA-501)

Complete the Adjustment Request Form (DMA-501) as completely and accurately as possible. Incomplete or inaccurate information can delay the adjustment process.

Reminder: If you submit on paper, attach a copy of the associated RA page before mailing your request.

Please Return To:
GHP
P.O. Box 105205
Tucker, GA 30085-5205

ADJUSTMENT REQUEST FORM

Adjustment Requests must be received within 3 months from the month of Medicaid payment.

1. Internal Control Number (ICN) of the paid claim to be adjusted as shown on the Remittance Advice	3. Provider Name/Address Provider Number: Phone Number () Contact Person
Member Medicaid Information 2. Medicaid Number Member Name (Last, First, Initial)	

4. Reason for adjustment (check one box)

A. Apply COB (indicate amount in Block #5D)

B. Change information as indicated in Block 5 below

C. Void claim

D. Medicare adjustment (attach all BOMB's that apply to this adjustment)

5. Please list the information to be corrected in Blocks SA-5D. If the information to be corrected does not have a line number enter zero in the line number field. COB applied should always be line #0.

Line to be Corrected	Information to be Changed	From (Current) Information	To (Corrected) Information

6. Explanation for Adjustment

7. FOR DCH USE ONLY

 CCN _____ PS Line Amount \$ _____

Provider Signature _____ Date _____

DMA 501 Rev. (07/10)

Figure 18: Adjustment Request Form (DMA-501)

5.8.1 Completion of the Adjustment Request Form

Field	Description	Guidelines
1	Transaction Control Number (TCN) / Internal Control Number (ICN)	Enter the 13-digit ICN or the 17-digit TCN assigned to the claim.
2	Member Medicaid Number Member Name	Enter the member number exactly as it appears on the RA for the TCN or ICN. Enter the name of the member exactly as it appears on the RA for the TCN or ICN.
3	Provider Name / Address Provider Number Phone Number Provider Contact Person	Enter the provider's name and address. Enter the identifying number assigned by the Provider Enrollment Unit. Enter the telephone number, including area code. Enter the name of a person who can be contacted regarding the adjustment, if necessary.
4	Reason for Adjustment	Mark an 'X' in the box that best explains the adjustment.
5	Please list the information to be corrected in fields 5A-5D. If the information to be corrected does not have a line number, enter zero in the line number field. COB applied should always be line #0.	Complete 5A-5D as needed.
5A	Line to be Corrected	Enter the line from the RA in field 5A.
5B	Information to be Changed	Write the item to be changed in field 5B, such as procedure code, quantity.
5C	From (Current) Information	Enter the incorrect information in field 5C as it appears on the RA, such as procedure, quantity.
5D	To (Corrected) Information	Write the corrected information for that item in field 5D.

5.9 Return to Provider Adjustment Letter

Examples of missing information required for processing adjustment/voids include:

- Missing signatures
- Print or ink too light to microfilm
- Incorrect/incomplete attachments
- Incorrect claim type
- Provider number incomplete or missing

The adjustment/voids are returned when possible. To process for payment, the adjustment/voids must be resubmitted with the corrected or additional information. Adjustment Return to Provider (RTP) letter attached to the adjustment/voids lists the reason for the returned information.

An example of the Adjustment Return to Provider Letter (see figure 21) is shown on the following page.

Provider Name _____
Address Line 1 _____
Address Line 2 _____
City, State Zip Code _____

Date: _____

Dear Provider:

The attached adjustment(s) is being returned for the following reason(s). These items require correction before the adjustment(s) can be processed. Please make the necessary corrections and resubmit for processing.

☐ PROVIDER NUMBER MUST BE 8 DIGITS

- ☐ Missing
- ☐ Incorrect
- ☐ Not legible
- ☐ Does not match originally paid claim

☐ PROVIDER SIGNATURE:

- ☐ Missing

☐ MEMBER NUMBER MUST BE 12 DIGITS

- ☐ Missing
- ☐ Incorrect
- ☐ Not Legible
- ☐ Does not match originally paid claim

☐ SIGNATURE DATE/DATE BILLED:

- ☐ Missing
- ☐ Not legible

☐ TYPE OF BILL(UB-04):

- ☐ Missing
- ☐ Invalid
- ☐ Not legible
- ☐ *Refer to Provider Manual for valid Medicaid Type of Bill codes.

☐ ICN MUST BE 13 DIGITS

- ☐ Invalid digit number
- ☐ ICN is not 13 digits
- ☐ Missing
- ☐ Only one ICN per claim form

☐ PLEASE INDICATE THE FOLLOWING:

- ☐ Please mark the desired changes on claim form:
(A) for Adjustment or (V) for Void
- ☐ Please select information to correct

☐ CLAIM FORM IS NO LONGER ACCEPTED. RE-SUBMIT CHARGE, ON-VALID CLAIM FORM.

☐ VOIDED CLAIM CANNOT BE ADJUSTED

☐ SUSPENDED CLAIM CANNOT BE ADJUSTED

☐ DENIED CLAIMS CANNOT BE VOIDED/ADJUSTED
*Please submit new claim form

☐ CLAIM IS IN PROCESS BY ANOTHER ICN:

☐ BLACK AND WHITE CLAIM FORM NOT ACCEPTED.

☐ EOMB INFORMATION DIFFERENT FROM CLAIM

INFORMATION:

- ☐ Dates of Service
- ☐ Member Name
- ☐ Billed Amount
- ☐ Procedure Code
- ☐ Resubmit on HCFA 1500 Claim Form
- ☐ Resubmit on UB04 Claim Form

☐ Adjustment(s) exceeds filing time limit of 3 months.
Your adjustment request can not be processed.

☐ TOTAL CHARGE CONFLICT

6 Provider Services Contact Center

6.1 Introduction

The Provider Services Contact Center is a key source of support for Georgia Medicaid related matters. The Provider Services Contact Center team of inquiry specialists serves as an important resource for billing information. Providers interact with the Provider Services Contact Center by telephone.

HP Enterprise Services' Provider Services Contact Center is staffed Monday to Friday, between the hours of 7:00 a.m. and 7:00 p.m., Eastern Standard Time. HP Enterprise Services maintains both English and Spanish speaking specialists.

The Provider Services Contact Center is dedicated to responding professionally and accurately to provider inquiries. Provider contact and support is typically related to one of the following areas:

1. Billing procedures
2. Claims disposition
3. Reimbursement
4. Member's eligibility
5. Prior Authorization (PA) status

All Provider Services Contact Center specialists and provider contacts are tracked and recorded for quality purposes.

6.2 Provider Interactive Voice Response System (IVRS) Basic

The Georgia Provider and Member IVRS provide automated access to common inquiries that may be answered over the telephone. This system acts as a first line of support to providers and members by supplying participant information. When callers need further assistance, they can access the Provider Services Contact Center. The IVRS also provides automated access to the Nurse Aide Registry and supports providers and nurse aides in obtaining forms and training program information.

The IVRS is equipped to allow providers to perform multiple requests such as:

1. Member eligibility
2. Claim status
3. Payment information
4. Service limits
5. Prior authorization status
6. Speak to a Provider Services Contact Specialist

Providers can reach a Provider Services Contact Specialist through the following phone numbers:

1. Toll-free IVRS phone number: 1-800-766-4456
2. Local IVRS phone number: 404-298-1228
3. Providers not enrolled in the Georgia Medicaid Program can contact other departments within HP Enterprise Services IVRS without a provider number:
 - a. Provider Enrollment
 - b. EDI

6.3 The Contact Us Function on the Web Portal

The Web Portal is equipped with a public contact page that allows any user to contact Georgia Medicaid regarding a complaint, request, suggestion, etc. The Contact Information panel is located on our website at www.mmis.georgia.gov. Users will navigate to the Contact Information menu and select Contact Us from the available submenu.

The screenshot shows a web form titled "Contact Information" with a blue header bar. The form is set against a light blue background. It includes the following fields and controls:

- How can we help you?**: A dropdown menu labeled "Select an Item" with "Other" selected.
- Enter Category Details**: A section with a large text area for details.
- How can we help you?**: A text input field.
- How do you want to be contacted?**: A dropdown menu labeled "Contact Method" with "Telephone" selected.
- Last Name, First Name**: Two adjacent text input fields.
- Phone Number, Ext**: Two adjacent text input fields.
- Footer**: A message "Press the submit button when you are done with all of your changes." and two buttons labeled "submit" and "cancel".

6.4 The U.S. Mail

HP Enterprise Services and DCH anticipate that written requests are typically submitted using the Provider Inquiry Form (DMA-520) and the Provider Inquiry Form for Medical Claims and PA/UM (DMA-520A).

When a written inquiry is received the following key information is needed:

1. Inquirer's name
2. Phone number
3. Provider number
4. Member ID number, if applicable

When submitting an inquiry to the Written Correspondence Contact Center team using the Provider Inquiry Form (DMA-520, see figure 23) photocopy and complete the form with the appropriate information. Mail the form to the address shown below.

Written inquiries may be mailed to the following address when using the DMA-520:

HP Enterprise Services Written Inquiry

P.O. Box 105200

Appendix A Resource Tools

This appendix describes how to use the following resource tools:

- Telephone Inquiry
- Medicaid Eligibility Inquiry
- Billing Assistance
- Enrollment Changes
- Return To Provider Letter

A.1 Telephone Inquiry

You can speak with a live Provider Services Contact Specialist, Monday through Friday, 7:00 a.m. to 7:00 p.m. Eastern Standard Time (except holidays). Following are the telephone numbers you can use to contact us:

1-800-766-4566 (toll free)

The Provider Contact Services Center will respond to inquiries regarding:

- Billing procedures
- Claims payment/status
- Electronic claim submission
- Program benefits
- Service limitations
- Web Portal functionality

A.2 Medicaid Eligibility Inquiry

Be prepared to provide the information listed below so the Provider Services Contact Specialist can best assist you with your inquiry:

- The 13-digit ICN found on each claim from your RA
- Provider Number
- Transaction Control Number (TCN)
- Date(s) of Service
- Claim Status (Paid, Denied, In Process, Suspended)
- Member name and Medicaid number

- The Explanation of Benefit (EOB) or error message, if applicable to your claim

A.3 Billing Assistance

The policy and billing manuals are always the first point of reference for questions. The billing manual reviews:

- Required claim forms and necessary information
- Sample RAs with explanations
- Billing protocol
- Order information for forms

Billing training and EDI assistance is available to:

- Assist you with billing problems
- Install PES software for electronic billing
- Review billing with your team
- Call the telephone inquiry line to request billing training or assistance

A.4 Provider Enrollment Changes

As a condition of continued Medicaid provider participation, all notifications of changes in address or enrollment must be made in writing. Enrollment changes that might affect claim reimbursement and that should be reported in writing include:

- Address/location
- Name of institution or business
- Telephone number
- License information
- Medicare provider numbers
- Federal employer identification numbers
- SSN
- Payee identifying information
- Ownership information

All checks for claim reimbursements that have been determined to be undeliverable by the post office are returned to the Financial Operations team at HP Enterprise Services. Financial Operations personnel attempt to contact the provider by telephone to determine why the check was returned. If the check was returned due to an unreported address change, the provider is requested to forward a notification

of change of address in writing to the HP Enterprise Services Provider Enrollment team. Upon receipt of the updated information, the check is mailed to the new address by the Financial Operations team. The reimbursement check is held in the HP Enterprise Services Financial Operations team until the change information has been received, if the days held exceed 90 to 180 days then the check will be voided.

This page intentionally left blank.

Appendix B NPI Requirements

The National Provider Identifier (NPI) has been adopted by the U.S. Department of Health and Human Services to meet the HIPAA health care provider identification mandate. It is a 10-digit number assigned to health care providers. Once a provider has an NPI, it will not change regardless of job or location changes. It replaces all existing health care provider identifiers including numbers assigned by Medicare, Medicaid, Blue Cross, etc. on standard HIPAA transactions. It will be the number used to identify providers nationally.

B.1 Who needs an NPI?

All Medicaid providers, both individuals and organizations, who are eligible to receive an NPI, are required to have an NPI. This includes:

- All Medicaid healthcare providers
- All CMO healthcare providers

B.2 The NPI will be required on electronic claims.

Medicaid providers who are not eligible to receive an NPI will maintain their current Medicaid Provider ID.

B.3 When do I need to use my NPI with Georgia Medicaid?

- Applying to be a Medicaid Provider
- On all electronic claims submission including claims submitted using PES
- Submitting any X12N (HIPAA) transaction that requires NPI

B.4 When do I need to use my Medicaid Provider Number?

You will need to use your Medicaid Provider Number in the following circumstances:

- Paper claims submission
- Resubmission of electronic claims on paper
- Submission of Web claims

IVRS inquiries

- Provider authentication
- All claim inquiries
- All other inquiries

Telephone inquiries

- Provider authentication
- All claim inquiries
- All other inquiries

Prior authorizations

- Requests
- Inquiries

Referrals

- Request
- Inquiries

Medicaid forms**B.5 When do I need both my NPI and my Medicaid Provider Number?**

- Adding a location to my provider record
- Changing my provider information
- Written inquiries and correspondence
- E-mail and Contact Us inquiries

Appendix C Miscellaneous Forms and Attachments

This section contains examples of miscellaneous forms and attachments used for billing. Providers must refer to their Part II Dental Policies and Procedures Manual for detailed instructions on how to complete these forms. To view and print other DCH forms and attachments, visit the HP Enterprise Services Web Portal at www.mmis.georgia.gov, navigate to the Provider Information menu and select Forms from the available submenu.

C.1 DMA-635 Form—Attestation of Pregnancy

DMA 635 Form—Attestation of Pregnancy

The **Attestation of Pregnancy** form serves to validate current pregnancy for the purpose of determining whether the member is eligible to obtain certain Medicaid dental service benefits. The member is directed to present completed & signed Attestation of Pregnancy statement to her dentist prior to seeking dental services.

Attestation of Pregnancy

_____ Is currently pregnant & under my care for related services.
Patient Name (please print)

The patient's estimated date of delivery is _____

Please advise of any medical limitations/or restrictions prohibiting the provision of dental care

☐ None

☐ Specify limitations/restrictions (if applicable): _____

I affirm the above information is factual to the best of my knowledge & under penalty of perjury.

_____ Provider Name (please print) _____ Provider Signature

Signed this _____ day of _____
Date Month Year

Figure 22: DMA-635 Form - Attestation of Pregnancy

C.2 Attachment Form for Electronically Submitted Claims

Most attachments for Web Portal claims can be attached using the Web Portal. If unable to submit attachments electronically, providers should use the following form when using one of the methods below:

1. Provider Electronic Solutions (PES) software
2. Remote Access Server (RAS) for dial-up
3. Diskette/CD-ROM/tape
4. DVD
5. Value Added Network (VAN)

This form must be mailed or faxed with the claim attachment paperwork.

Figure 23: Attachment Form for Electronically Submitted Claims

C.3 Medically Needy Spenddown Form (DMA-400)

The DMA-400 form is completed by DFCS for services rendered to medically needy members on the same date as the beginning date of eligibility. The form identifies the spenddown amount of first day liability, which is payable to the provider by the member.

What is the Medically Needy Spenddown Program?

The Medically Needy program covers children under age 18, pregnant women, aged, blind, and disabled persons who otherwise are not Medicaid eligible because of income. Their monthly income may exceed the Medicaid payment income eligibility standard and would result in these individuals having to pay for a prescribed amount of their healthcare before they are eligible for Medicaid.

If the statement on the DMA-962 form reads, "DMA-Form 400 required" and if the beginning date of eligibility is equal to the DOS or within the span of dates of service, the DMA-400 form must be attached to the submitted claim for payment. If not attached, the claim is rejected or denied to the provider, with an error message stating that the DMA-400 form is required before the claim can be processed.

The DMA-400 form is completed by DFCS for services rendered to Medically Needy Members on the same date as the beginning date of eligibility. The form identifies the spenddown amount of first day liability, which is payable to the provider by the member.

This amount could be zero; however, the paper DMA-400 form must be submitted for payment.

Note: Do not deduct the first day liability amount that appears on Form 400 from submitted charges. If you have any questions about eligibility or the DMA-400 form, contact the member or your county DFCS office.

**MEDICALLY NEEDY FIRST DAY LIABILITY
AUTHORIZATION FOR REIMBURSEMENT**

Patient Name: _____

Patient ID Number: _____

Beginning Date of Eligibility (Begin Authorization Date): _____

Provider Name: _____

Bill to be Processed with Client Liability for Beginning Date: ☐ Yes ☐ No

If yes, the amount the Client is responsible for paying to the Provider names above is
\$ _____

(Applicable to covered services rendered by Medicaid-enrolled providers)

Payment is made only to Medicaid-enrolled providers for covered expenses. Services not covered by Medicaid or services rendered by a provider who is not Medicaid-enrolled must be paid by the member.

D5851	Tissue Conditioning/mandibular	Health Check Only	
D7111	Extraction, coronal remnants – deciduous tooth	Health Check and Adults	
D7140	Extraction, erupted tooth or exposed root (elevation and/or forceps removal)	Health Check and Adults	
D7140	Extraction, erupted tooth or exposed root (elevation and/or forceps removal)	Health Check and Adults	Each additional tooth

CDT Code	Description	COS	Indicator
D7210	Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth (Includes cutting of gingiva and bone and/or tooth)	Health Check and Adults	
D7220	Removal of impacting tooth – soft tissue. Tooth is embedded in soft tissue.	Health Check and Adults	
D7230	Removal of impacted tooth-partially bony	Health Check and Adults	
D7240	Removal of impacted tooth – completely bony. Crown of tooth is completely covered by bone.	Health Check and Adults	
D7250	Surgical removal of residual tooth roots (cutting procedure)	Health Check and Adults	
D7260	Oroantral fistula closure	Health Check ONLY	
D7270	Tooth re-implantation and/or stabilization of accidentally evulsed or displaced tooth	Health Check and Adults	
D7280	Surgical access of an unerupted tooth	Health Check ONLY	
D7286	Biopsy of oral tissue-soft	Health Check, Adults, and Pregnant Women	
D7286	Biopsy of oral tissue-soft	Health Check, Adults, and Pregnant Women	Each additional lesion
D7310	Alveoplasty in conjunction with extractions – four or more teeth or tooth spaces, per quad	Health Check ONLY	
D7311	Alveoplasty in conjunction with extractions One to three teeth or tooth spaces,	Health Check ONLY	

CDT Code	Description	COS	Indicator
	per quadrant		
D7320	Alveoplasty not in conjunction with extractions – four or more teeth or tooth spaces, per quad. <i>(See D7310 per CDT if teeth are being extracted concurrently with alveoplasty).</i>	Health Check ONLY	
D7321	Alveoplasty not in conjunction with extractions	Health Check ONLY	
D7440	Excision of malignant tumor Lesion diameter up to 1.25cm	Health Check ONLY	
D7450	Removal of benign odontogenic cyst or tumor lesion diameter up to 1.25cm	Health Check ONLY	
D7451	Removal of benign odontogenic cyst or tumor diameter greater than 1.25cm	Health Check ONLY	
D7460	Removal of benign non-odontogenic cyst or tumor - up to 1.25cm	Health Check ONLY	
D7461	Removal of benign non-odontogenic cyst or tumor- lesion diameter greater than over 1.25cm	Health Check ONLY	
D7471	Removal of lateral exostosis (maxilla or mandible)	Health Check ONLY	
D7510	Incision and drainage of abscess - intraoral soft tissue	Health Check and Adults	
D7520	Incision and drainage of abscess – extraoral soft tissue	Health Check and Adults	

CDT Code	Description	COS	Indicator
D7540	Removal of reaction-producing foreign bodies of musculoskeletal system. May include, but is not limited to removal of splinters	Health Check and Adults	
D7550	Partial ostectomy/Sequestrectomy for removal of non-vital bone	Health Check ONLY	
D7610	Maxilla - open reduction (teeth immobilized, if present)	Health Check and Adults	
D7620	Maxilla - closed reduction, (teeth immobilized, if present)	Health Check and Adults	
D7630	Mandible - open reduction, (teeth immobilized, if present)	Health Check and Adults	
D7640	Mandible - closed reduction, (teeth immobilized, if present)	Health Check and Adults	
D7820	Closed Reduction of dislocation	Health Check and Adults	
D7910	Suture of recent small wounds up to 5cm	Health Check and Adults	
D7912	Complicated suture greater than 5cm	Health Check and Adults	
D7960	Frenulectomy (frenectomy or frenotomy)-separate procedure	Health Check ONLY	
D7970	Excision of Hyperplasic Tissue (per arch)	Health Check ONLY	
D7971	Excision of Pericoronal gingiva	Health Check ONLY	
D7997	Appliance Removal (not by dentist who placed appliance), includes removal of archbar	Health Check ONLY	

CDT Code	Description	COS	Indicator
D8080	Comprehensive Orthodontic Treatment of Adolescent Dentition	Health Check ONLY	
D8660	Pre-Orthodontic treatment visit	Health Check ONLY	
D9110	Palliative (emergency) treatment of dental pain, minor procedure	Health Check and Pregnant Women	
D9215	Local Anesthesia (<i>not covered in conjunction with other procedures and services</i>)	Pregnant Women ONLY	
D9220	Deep Sedation/General Anesthesia-first 30 minutes	Health Check and Adults	
D9221	Deep Sedation/General Anesthesia, each additional 15 minutes	Health Check and Adults	
D9230	Analgesia, anxiolysis, inhalation of nitrous oxide	Health Check and Adults	
D9241	Intravenous conscious sedation - first 30 minutes	Health Check and Adults	
D9242	Intravenous conscious sedation/analgesia each additional 15 minutes	Health Check and Adults	
D9248	Non-Intravenous Conscious Sedation	Health Check and Adults	
D9310	Consultation diagnostic service provided by dentist or physician other than requesting dentist or physician	Health Check ONLY	
D9420	Hospital Call	Health Check ONLY	
D9440	Office Visit After Regularly Scheduled Hours	Health Check and Adults	
D9610	Therapeutic parenteral drug, single administration	Health Check ONLY	

CDT Code	Description	COS	Indicator
D9630	Other drugs and medication, by report	Health Check ONLY	
D9920	Behavior Management, by report (Only post approval is required)	Health Check ONLY	

D.1 Covered Dental Services for Pregnant Women

Effective for dates of services on or after July 1, 2006, the following services are covered for eligible pregnant women. All covered dental services and procedures are subject to the terms and conditions outlined in Part I of the Policy & Procedures Manual for Medicaid/PeachCare for Kids™. Refer to the Part II Policy & Procedures for Dental Services Manual, Appendix B, for reimbursement rates.

Except for approved services listed in Part II Policies and Procedures Dental Manual for non-pregnant women, the following CDT codes apply ONLY to eligible pregnant women.

CDT Code	Short description
D1110	Prophylaxis - Adult
D0120	Periodic Oral Exam
D0150	Comprehensive Evaluation
D0180	Comprehensive Periodontal
D1204	Topical Application/Fluoride (prophylaxis not included)
D2140	Amalgam-one surface
D2150	Amalgam-two surface (primary)
D2150	Amalgam-two surface (permanent)
D2160	Amalgam-three surface (primary)
D2160	Amalgam-three surface (permanent)
D2161	Amalgam - 4+ surface, primary and perm
D2330	Resin based composite-one surface anterior
D2331	Resin-based composite, two surface anterior
D2332	Resin based composite-three surface anterior
D2335	Resin-based comp, 4+ surface anterior
D2391	Resin based composite-one surface posterior
D2392	Resin based composite-two surfaces, posterior
D2393	Resin based composite-three surfaces, posterior
D2394	Resin based composite-four surfaces, posterior
D4240	Gingival flap procedure, including root planing four + continuous teeth
D4241	Gingival flap, including root planing 1-3 teeth
D4341	Periodontal scaling and root planing four + teeth

CDT Code	Short description
D4342	Periodontal scaling 1-3 teeth
D4910	Periodontal maintenance
D7286	Biopsy oral tissue soft
D9110	Palliative (emergency) treatment of dental pain
D9215	Local Anesthesia (not in conjunction with other services and procedures)

D.2 Example Of A Proper And Valid Dental Treatment Record

The treatment record must include information regarding patient contact, contact with DCH or GMCF, accounting records, and services to be rendered at the next appointment.

Patient Name/Number and Dentist Name/Number		
Date	Tooth	Treatment Rendered Fee
		Initial exam, prophyl, Fl. tx., 2PA's, O.H. good
		Med. history taken tooth chart completed tx.
		Needed - E, F ext., S, T, A, P - Amal; D-comp; Sp
		Main U. Sent for prior approval - requested mgt.
		Time 1 hour - pt. MR and difficult to handle
		PA received from Medicaid - schedule tx.
	E	Rout. ext. pt. 30 min. late
	F	Rout. ext. 1.0cc xy/o 2%
		Impression taken space maint. for E and F .30 min.
		Mgt. time - pt screamed and fought full appt.
		2 assistants needed. next appt. - 1 week
		No show - pt has no phone - sent card for re-appt
	S	OL amal, B - SSC - c duralon
	T	BOL amal. 1.8cc xy/o
	A	MOD amal
		Insert spacer w/duralon
		.30 min mgt time - needed mom and two assistants
		Pt fought and wouldn't open mouth
		Recall exam, prophyl fltx. 2BW's updated and history
	D	F comp. behavior improved

D.3 Billing Procedures For Open Pulp-Chamber To Establish Drainage And Partially Completed Root Canal Therapy

Root Canal Therapy (RCT) is available only to eligible Health Check members and the procedures must be billed as detailed in the following section. Post-operative x-rays are to be taken as part of the Root Canal Therapy charge and are to be maintained by the dentist. The Division may request these x-rays at a future time.

1. Emergency Root Canal Procedures, Procedure Code D3221—Pupal debridement, primary and permanent teeth.
 - a. This code is intended to meet the limited demands, which may arise from the urgencies for root canals.
 - b. A provider may only “open the pulp-chamber” to establish drainage in an emergency situation.
2. The provider should submit a treatment plan with supporting radiographs to the Division for approval and should complete Section 59 of the claim form as follows: See Part II, Chapter 900, Section 902.5 (d) for documentation and types of x-rays needed.
3. If the Root Canal treatment is completed. The provider should line out the “open pulp-chamber” procedure and bill for the complete RCT procedure.
4. If the Root Canal treatment is not completed. The provider should bill the Division for that portion which was completed. It should be noted in the “Description of Services” area of the claim that treatment was “not completed” and why.
 - a. If the provider only performed the “open pulp-chamber” procedure, the provider should line out the complete RCT procedure and bill for the “open pulp-chamber”.
 - b. If the Member returns for the second visit but fails to return for the final appointment, the provider should line out the “open pulp-chamber” procedure, and bill the Division for 2/3rd of his normal billing charge for a completed root canal, using the appropriate procedure code.

A provider may bill for either a root canal therapy (procedure codes D3310 or D3320) or an “open pulp-chamber” (procedure code D3221) but not both.

5. Partially Completed Root Canal Therapy
 - a. If the member fails to return for the completion of the RCT, the provider should bill for that portion of the treatment rendered, adjusting the fee accordingly.
 - b. The provider should note in Section 61 of the claim form that treatment was not completed and why.

This page intentionally left blank.

Appendix E HIPAA Attachment Codes

Effective November 1, 2010, the following HIPAA attachment codes have replaced the previous attachment codes that were being assigned to those claims that required an attachment for claims' processing. The "Old Attachment Code" column identifies those attachment codes previously used. "HIPAA Attachment Codes" column identifies the replaced attachment codes. Also included in this column is a brief description of the HIPAA attachment code. The "Comments" column explains the type of attachment that is not self-explanatory and need further clarification.

Attachment Codes Crosswalk

Old Attachment Code	HIPAA Attachment Code	Comments
04	AS Admission Summary	History & Physical or progress notes
05		
12		
04	B3 Physician Order	
21	B4 Referral Form	Hospice Referral form, Revocation Form, Election Form, Hospice Discharge Form, Hospice Transfer Form, Hospice Physician Certification, and Recertification Form
01	CT Certification	DMA-962, DMA-400 (DFCS issued letter), Temporary Medicaid Certification Form, Supplemental Security Income Letter, DMA-304, Death Certificate
05		
12		
14		
21		
04	DA Dental Models	
04	DS Discharge Summary	
05		
12		
06	EB Explanation of Benefits	EOMB, TPL, Remittance Advice
09		
11		
04	NN Nursing Notes	

Old Attachment Code	HIPAA Attachment Code	Comments
04	OB Operative Notes	
05		
12		
04	OZ Support Data for Claim	This can be any miscellaneous documentation needed to support processing a claim
05		
12		
21		
04	RB Radiology Films	
04	RR Radiology Reports	
04	RT Report of Test and Analysis	
Note: If you are unable to find the appropriate attachment code for documentation being submitted as an attachment, please use "OZ".		

Glossary

270/271 (Eligibility/Benefit Inquiry/Response): The Eligibility and Benefit transactions are designed so that inquiry submitters (information receivers) can determine: a) whether an information source organization (e.g., payer, employer, HMO) has a particular subscriber or dependent on file, and b) the health care eligibility and/or benefit information about that subscriber and/or dependent(s). The data available through these transaction sets is used to verify an individual's eligibility and benefits, but cannot provide a history of benefit use. The information source organization may provide information about other organizations that may have third party liability for coordination of benefits. These are X-12 transactions mandated by HIPAA regulations.

276/277 (Claim Status Request/Claim Status Response): The 276 and 277 transaction sets are intended to meet specific needs of the health care industry. The 276 is used to request the current status of a specified claim(s). The 277 transaction set can be used as the following: a) a solicited response to a health care claim status request (276), b) a notification about health care claim(s) status, including front end acknowledgments, or c) a request for additional information about a health care claim(s). The 276 is used only in conjunction with the 277 Health Care Claim Status Response. These are X-12 transactions mandated by HIPAA regulations.

277 (Unsolicited Claim Status): The Unsolicited Claim Status (277) transaction set can be used to transmit an unsolicited notification about a health care claim status. This is an X-12 transaction mandated by HIPAA regulations.

820 (Premium Payment): The 820 can be used by premium remitters to report premium payment remittance information, as well as premium payment to a premium receiver. The premium remitter can be: a) an employer-operated internal department or an outside agency which performs payroll processing on behalf of an employer, b) a government agency paying health care premiums, or c) an employer paying group premiums. The premium receiver can be an insurance company, a government agency, or a health care organization. The 820 can be sent from the premium remitter to the premium receiver either directly, through a VAN, or through a financial institution using an ACH (Automated Clearing House) Network to facilitate both the remittance and dollars movement. This is an X-12 transaction mandated by HIPAA regulations.

834 (Enrollment/Maintenance): The 834 is used to transfer enrollment information from the sponsor, the party that ultimately pays for the coverage, benefit, or policy to a payer, the party that pays claims and/or administers the insurance coverage, benefit, or product. This is an X-12 transaction mandated by HIPAA regulations.

835 (Payment Advice): The 835 contains information about the payee, the payer, the amount, and any identifying information of the payment. In addition, the 835 can authorize a payee to have a DFI (Depository Financial Institutions) take funds from the payer's account and transfer those funds to the payee's account. This is an X-12 transaction mandated by HIPAA regulations.

837 (Dental/Professional/ Institutional Claim): The Claims/Encounters (837) is intended to originate with the health care provider or the health care provider's

designated agent. The 837 provides all necessary information to allow the destination payer to at least begin to adjudicate the claim. The 837 coordinates with a variety of other transactions including, but not limited to, the following: Claim Status (277), Remittance Advice (835), and Functional Acknowledgment (997). This is an X-12 transaction mandated by HIPAA regulations.

997 (Functional Acknowledgement): The Functional Acknowledgement is generated by the receiver of an 837 and is used to notify the sender that the acknowledged transaction has been: a) accepted, b) rejected, c) accepted with errors, or d) partially accepted. This is an X-12 transaction mandated by HIPAA regulations.

A

ABANDONED CALL: A call is considered abandoned if the caller is connected to the system but hangs up before being connected with an agent or informational announcement. Also known as a lost call.

ABR: Automatic Backup and Recovery.

ABD: Aged Blind and Disabled.

ACCEPTED CLAIM: Any claim for services rendered that has passed clerical and machine edits, resulting in a claim that can be accepted for adjudication.

ACCESS CONTROL FACILITY (ACF2): Mainframe security for MMIS. ACF2 for CICS includes security by individual, location, files, and fields.

ACCESS CONTROL FACILITY/MULTIPLE VIRTUAL STORAGE (ACF/MVS): A Security Extension to the IBM Multiple Virtual Storage Operating System (MVS OS).

ACCOMMODATION: A hospital room with one or more beds.

ACCOMMODATION CHARGE: A charge billed on inpatient hospital claims for bed, board, and nursing care (revenue codes 100-219).

ACCOUNTS RECEIVABLES (AR, A/R): Money owed to the State by a provider, beneficiary, insurance company, drug manufacturer, etc.

ACCRETION: A process that occurs when a beneficiary is eligible for coverage under both Medicaid and Medicare. Medicaid pays the beneficiary's Medicare premium, thus buying into the Medicare Program.

ACF: Advanced Communications Function.

ACG: Ambulatory Care Grouper.

ACTUAL CHARGE: A charge made by a physician or other supplier of medical services and used in the determination of reasonable charges.

ACTUAL DAMAGES: Damages that can be measured in actual cost.

ACUTE CARE: Medical treatment rendered to individuals whose illnesses or health problems are of a short term or episodic nature. Acute care facilities are those hospitals that serve mainly persons with short term health problems.

AD HOC REQUEST: A request to provide non-production support. This support may be in the form of one-time updates to production files or the creation of specific one-time or as needed output reports.

ADA: Americans with Disabilities Act.

ADJUDICATE (CLAIM): The adjudication process occurs during claims processing to determine the disposition of a claim (paid or denied). A claim passes through all the edit and audit criteria until it is determined whether all program requirements have been met and whether the claim is to be paid or denied.

ADJUDICATED CLAIM: A claim that has moved from pending status to final disposition, either paid or denied.

ADJUDICATION CYCLE: This cycle refers to the daily or daily/weekly claims processing cycles that are known as the system processing of claims to the point where a decision has been made to pay, deny, or suspend the claim.

ADJUSTMENT: A transaction that changes any information on a claim which has been paid.

ADJUSTMENT PROCESSING: A batch process that sends a file of adjustment request records to the Financial Subsystem for incorporation into the claims processing cycle.

ADJUSTMENT REASON CODES (PRIMARY AND SECONDARY): The adjustment reason codes specify why the initial adjustment took place, whereas the secondary adjustment reason indicates the second adjustment occurrence on a claim. These codes are also known as the primary reason and the secondary adjustment reason.

ADMINISTRATIVE FEE: The operations fees being charged to DCH on the Contractor monthly invoice.

ADMISSION: The first day on which a patient is furnished inpatient hospital or extended care services by a qualified provider.

ADA: American Dental Association The national professional association for dentists.

ADP: Automated Data Processing.

ADR: Address.

ADVANCE – MANUAL: Advance payment issues as a manual check to be picked up by the provider or sent via Federal Express

ADVANCE – SYSTEM: Advance payment issues through the system and included in the regular payment cycle.

AFDC: Aid for Families with Dependent Children. This federal program was replaced by Temporary Assistance to Families in Need of Services (TANF).

AICPA: American Institute of Certified Public Accountants.

AID CATEGORY: Program category under which a beneficiary can be eligible for Medicaid.

AID CODE: A designation of the type of benefits for which a Medicaid beneficiary is eligible.

AIMS: Aging Information Management System.

ALERTS: A message related to a supervisors or system managers. Alert messages include error messages and emergency warnings.

ALLOWABLE COSTS: The maximum dollar amount assigned for a particular procedure based on various pricing mechanisms. Medicaid reimburses hospitals for certain, but not all costs. Excluded costs include non-covered services, luxury accommodations, and unnecessary and unreasonable costs.

ALLOWED AMOUNT: Either the amount billed for a medical service or the amount determined payable by the State, whichever is the lesser figure.

ALPHANUMERIC: The use of alphabetic letters mixed with numbers and special characters as in name, address, city, and state.

AMA: American Medical Association. The national professional association of physicians. This organization publishes the highly utilized CPT-4 books.

ANCILLARY CHARGE: A charge used only in institutional claims for any item except hospital and doctor fees (examples include drug, laboratory, and x-ray charges).

ANCILLARY SERVICES: Supplemental services, including laboratory, radiology, physical therapy, and inhalation therapy that are provided in conjunction with medical or hospital care.

ANSI: American National Standards Institute. In computer programming, ANSI most often denotes the standard versions of C, FORTRAN, COBOL, or other programming languages. ANSI-standard escape sequences control computer screens; whereas ANSI extended character set used in Microsoft's Windows products includes all of the ASCII characters.

APD: Advanced Planning Document. Federal budget request document that a state must submit to CMS in order to receive enhanced federal funding for Medicaid systems or operations.

APPROVE: A clear, written expression issued by DCH indicating that Contractor's performance or deliverable is satisfactory under the terms of the Contract.

ARCHIVE: A copy of data on disks, CD-ROM, magnetic tape, etc., for long-term storage and later possible access. Archived files are often compressed to save storage space. (Imaging.)

ASA: Average Speed of Answer.

ASCII: American Standard Code for Information Interchange

The most popular coding method used by small computers for converting letters, numbers, punctuation and control codes into digital form. Once defined, ASCII characters can be recognized and understood by other computers and by communications devices. ASCII represents characters, numbers, punctuation marks or signals in seven on-off bits. Capital "C", for example, is 1000011, while "3" is 0110011. This compatible coding allows all PCs to talk to each other, if they use a compatible modem or null modem cable and transmit and receive at the same speed. (Imaging.)

ASO: Administrative Services Organization. An organization contracted to perform functions such as provider and member profiling, case management, disease and care management, nurse call line, enhanced prospective medical review, added fraud and abuse detection, certain eligibility functions and level of care determination for Members where risk based care is not feasible.

ATN: Application Tracking Number. The unique number given to a provider application in the Provider subsystem.

ATR: Accounting Transaction Request. Document used to request HP Enterprise Services create Gross Level AR, Gross Level Payouts, Withholdings, voiding of checks, Recoupment changes, from DCH.

ATTRIBUTE: Additional fields of information that are required for some call control commands within the telephone system. When you enter a command in a Call Control Table that requires attributes, these fields appear in the table to the right of the command name.

ATTRIBUTE: In graphics, the condition a font is in (boldface, italic, underlined, reverse video) is its attribute. In a document retrieval system, an attribute of a file is one of the keys by which the document has been stored and indexed. (Imaging.)

AUDIT: Limitations applied to specific procedures, diagnoses or other data elements after editing and validation of the claim to ensure conformity and consistency of claim payment.

AUTHENTICATION: A query method that ensures that both the sender and receiver of an electronic message are valid and are authorized to transmit and receive messages.

AUTO ASSIGNMENT: An automated process used to make 'intelligent' Managed Care assignments for beneficiaries who do not make a selection of a Primary Medical Provider of their own accord.

AUTOMATIC RECOUPMENT: Automatic recoupment occurs when an A/R with a credit balance has recoupments applied to it by adjustments or new-day claims.

Money is recouped only through the payment process, which is automatic, and cannot be posted online with a refund.

AVAYA CALL MANAGEMENT SYSTEM (ACMS): Avaya Definity 75 G3r-V9 telephone system provides information and management tools to help monitor and analyze the performance of the call center operation.

AVRS: Automated Voice Response System. (See IVR for definition.)

B

BACKUP: Duplicate copy of data placed in a separate, safe place - electronic storage, on a tape, on a disk, in a vault - to guard against total loss in the event the original data somehow becomes inaccessible. Generally, for short-term safety. Contrast with archive, which is a filed-away record of data meant to be maintained a long time, in the event of future reference. (Imaging.)

BBA: Balanced Budget Act of 1997. Federal legislation enacted in 1997 that gave beneficiaries certain rights related to Managed Care enrollment and disenrollment. Most significant changes in the Medicaid/Medicare Program since their inception. Provides for state option to use Managed Care. Provides that an MMIS must be compatible with Medicare claims processing and must, after January 1, 1999, transmit data in a format consistent with the Medicaid Statistical Information System (MSIS).

BATCH: A set of claims. Paper claims are batched by invoice type, e.g., UB-04, HCFA-1500, pharmacy, adjustments, etc. The number of claims in a paper batch may vary from 1 to 99. Electronic batches have no claim ceiling, but must contain at least 25 claims. Claims are batched to control the quality and quantity of claims entered into the system. Batching supports the assignment of a unique set of numbers to a specific set of claims. There are specific batch number ranges for certain batch types: EMC, adjustments, credits, POS transactions, etc.

BATCH CYCLE: Batch cycles are scheduled and managed by the Autosys job scheduling software. Processing from all the subsystems, and claim adjudication is done at this time. Many edits and parameters are used for a batch cycle.

BATCH PROCESSING: One of the non-interactive computer processes used in the MMIS. In batch processing, the user gives the computer a "batch" of information; the computer then processes it as a whole. Batch processing contrasts with interactive processing, in which the user communicates with the computer by means of a workstation while the program is running.

BATCH REQUEST: A batch request does not require immediate processing. The requester does not wait for the request to be completed, and it does not receive a success or failure response back from the unite storager. (Imaging.)

BIAR: Business Intelligence and Analytical Reporting.

BENCHMARK: A level of care set as a goal to be attained. For example, competitive benchmarks are comparisons with the best external competitors in the field. The

State Children's Health Insurance Program benefit package includes a benchmark package that is used to compare other benefit packages' value and comprehensiveness.

BENDEX: Beneficiary and Earnings Data Exchange System. A file containing data from the federal government regarding all persons receiving benefits from SSA and the Veterans Administration.

BENEFIT PLAN: A group of covered services (benefits) that are granted to a beneficiary who is deemed eligible for the program the benefit plan represents.

BENEFITS: The process whereby a State pays for medical services rendered to Medicaid-eligible beneficiaries.

BILLED AMOUNT: The billed amount is the dollar figure submitted by a provider for medical services rendered.

BIN: Bank Identification Number.

BITMAP: Representation of characters or graphics by individual pixels, or points of light, dark or color, arranged in row (horizontal) and column (vertical) order. Each pixel is represented by either one bit (simple black and white) or up to 32 bits (fancy high definition color). (Imaging.)

BRIGHTNESS: The balance of light and dark shades in an image. Contrast with contrast. (Imaging.)

BROKER: The contracted Vendor which is responsible for the Non-Emergency Transportation (NET) Program. (See definition of NET.)

BRS: Benefits Recovery Section. The Unit at DCH responsible for addressing accounts receivables, liens, recoupments, refunds, etc.

BULLETINS: Directives mailed, emailed, uploaded to the Web Portal to Georgia Medical Assistance Program providers containing information on policy, billing procedures, benefits and limitations, etc.

BUNDLED CHARGES: Charges that are combined together or represent a flat rate such as in capitated reimbursed where there would be a specified fee for a service. In an example of a surgery procedure, the bundled charges would include supplies, surgery charges, anesthesia charges, recovery, etc. In contrast, unbundled charges would be separate charges for each entity.

BUSINESS ASSOCIATES: Person or organization that performs a treatment, payment, or health care operations function or activity on behalf of a covered entity.

BUSINESS DAY: Any day the State is open for normal business operations.

BUSINESS PRACTICE MANUAL (BPM): The Fiscal Agent internal user manuals.

BUY-IN: Procedure whereby states pay a monthly premium to the Social Security Administration on behalf of Medicaid beneficiaries, enrolling them in Medicare Title XVIII Part A and/or Part B program.

BYTE: Common unit of computer storage. A byte is eight bits of information, one of which may be a parity bit. Generally, eight bits equals one character. Also called 'octet'. (Imaging.)

C

CACHE: (Pronounced "cash") Small portion of high-speed memory used for temporary storage of frequently used data. Reduces the time it would take to access that data, since it no longer has to be retrieved from the disk. (Imaging.)

CARRIER: A carrier refers to a private insurance company.

CASE NUMBER: The number assigned to each Medicaid case opened by DFACS.

CATEGORICALLY NEEDY: The term that identifies those aged, blind or disabled individuals or families who meet Medicaid eligibility criteria and who meet the financial limitation requirements for TANF, SSI or optional State financial support.

CCB: Change Control Board, a formally constituted group of DCH staff responsible for approving or rejecting changes to the source code, run-time files, documentation, configuration files and installation scripts that comprise the Proprietary and Non-Proprietary Software.

CCN: Cash Control Number. This is the unique number assigned to a Cash Receipt.

CCP: Change Control Process. This is the process used to review, escalate, and dispose (approved or denied) any necessary changes made to project requirements.

CERTIFICATION: This review is conducted in response to a State's request for 75 percent Federal Financial Participation (FFP), to ensure that all legal and operational requirements are met by the MMIS system and its components.

CERTIFICATION DATE: An effective date specified in a written approval notice from CMS to the State when 75 percent FFP is authorized for the administrative costs of an MMIS.

CFR: Code of Federal Regulations. A codification of the general and permanent rules published in the federal register by the Executive departments and agencies of the federal government.

CHANGE CONTROL: The exercise of authority over changes to configuration items, including impact analysis, prioritizing, granting access, signing out, approving or rejecting, capturing change contents, and adding.

CHARACTER RECOGNITION: The ability of a machine to read human-readable text. (Imaging.)

CHARACTER VALIDATION: As each character is entered by the data capture team member, its validity is checked and the character is corrected, if necessary. (Imaging.)

CGI: Common Gateway Interface. One of the most common ways to add programs or scripting languages that execute on the server to your Web-based applications.

CIS: Children's Intervention Services.

CISS: Children's Intervention School Services.

CLAIM: A request for payment filed with the fiscal agent, on a form prescribed by DCH and the fiscal agent, by a certified Medicaid provider for Medicaid-covered medical and medically related services rendered on behalf of an eligible Medicaid beneficiary.

CLAIM TYPE: The classification of a claim by origin or type of service provided to a beneficiary.

CLAIM HISTORY: All claims processed in the MMIS are kept available in the system and are referred to as being "in history."

CLEAN CLAIM: See "Accepted Claim."

CLERK ID: A code assigned to personnel involved with processing records in the MMIS claims processing system.

CLIA: Clinical Laboratory Improvement Amendments.

CMMI: Capability Maturity Model Integration.

CMO: Care Management Organization.

CMS: Centers for Medicare and Medicaid Services. The federal agency (formerly known as HCFA) responsible for the administration of the Medicaid, Medicare, and other health care programs.

CMS 1500: The claim form used by DCH to file for services performed by most practitioners.

CO: Change Order. The documentation of a modification to the transfer system. A change order is not a modification of a requirement; it is the modification of the base system to meet an existing requirement.

COB: Coordination of Benefits.

COE: Category of Eligibility or Aid Category.

COINSURANCE: An arrangement by which an insurance plan, Medicare, Medicaid or other third party share the cost of medical expenses.

COMMUNICATION PROTOCOL: Establishes the communication parameters between two computers. Includes baud rate, type of transmission, and parity setting.

COMMUNICATIONS: The means of electronically linking two computers to exchange information in EDI.

COMMUNICATION SOFTWARE: Software necessary to add appropriate protocols to the EDI documents in preparation for transmission over a telecommunications network.

COMPANION DOCUMENTS: A guide of Georgia specific information to be used in coordination with the Implementation Guide for X12 and NCPDP formatting.

COMPLAINT: A relatively minor verbal or written expression of concern about a situation that can be resolved on an informal basis.

COMPLIANCE CHECKING: A validation check to ensure that a transmission contains the minimum mandatory information required by the EDI standard.

CONTACT: A record of an interaction between a customer (provider or member) and a system user.

CONTRACT: The written, signed agreement resulting from this RFP.

CONTRACT MANAGER: Person or entity designated by DCH as the chief point of contact for communications with DCH for the Operations Phase. Provides project direction and monitors the activities of the contract.

COS: Category of Service. This would relate to the provider contract in HP Enterprise Services.

COST AVOIDANCE: A claim may be denied when coverage exists and there is no indication that the carrier has been billed (cost avoided).

COST SHARE: The amount that a member receiving services under CCSP or an HCBS waiver may be required to pay toward the cost of reimbursement for services received.

COTS: Commercial Off-the-Shelf Software.

CPT: Common Procedural Terminology. A unique coding structure scheme for all medical procedures approved by the American Medical Association.

CROSSOVER CLAIM: A claim for services rendered to a member eligible for benefits under both Medicaid and Medicare programs. Medicare benefits must be processed prior to Medicaid benefits.

CROSS WALK: A table used to one code to another code.

CSR: Customer Service Request.

CTMS: Contact Tracking Management Solution. This ancillary application provides a means of access and storage for all information associated with a customer service contact. All contact information is associated with an assigned CTN. This information includes contact type, demographic information, questions, resolutions, and contact reasons. HP Enterprise Services and DCH staff enter information for each contact through online windows. Search windows allow users to sort and access contacts based on a variety of criteria. Reports are available based on open dates, status, clerk IDs and department.

Example:

Item: Written Correspondence

Details of the written correspondence are stored within CTMS

Actual process of where the written correspondence goes is Workflow

CTN: Contact Tracking Number. A unique number used in CTMS.

CUSTOMARY CHARGE: A dollar amount that represents the median charge for a given service by an individual physician or supplier.

CUSTOMIZATION: Process of building or modifying an instrumentality in accordance with the State of Georgia, Department of Community Health's specification.

CYCLE: A single event that is repeated, for example, in a carrier frequency, one cycle is one complete wave. Or, a set of events that is repeated, for example, in a polling system, all of the attached terminals are tested in one cycle.

D

DATA: Individual facts, statistics or items of information.

DATABASE (DB): Data that has been organized and structured in a disciplined fashion, so that access to information of interest is as quick as possible. Database management programs form the foundation for most document storage indexing systems. (Imaging.)

DATABASE ADMINISTRATOR (DBA): The person responsible for maintaining the database system: managing data, designing database objects, database performance and data recovery and integrity at a physical level. This person is not an applications programmer.

DATABASE TABLE: A collection of similar records in a database within the telephone system. The Call Center software uses database tables to store all types of user-entered information. For example, the User table contains one record for each user in the system. The Agent Group table defines each agent group and sets options for each. All tables in the system database are accessed through the Database command on the Call Center main menu.

DATA CAPTURE: Entering data into the computer, which includes keyboard entry, scanning and voice recognition. When transactions are entered after the fact (batch data entry), they are just stacks of source documents to the keyboard operator. Deciphering poor handwriting from a source document is a judgment call that is often error prone. Online data capture team members, in which the team member takes information in person or by phone, entails interaction and involvement with the transaction and less chance for error.

DB2: Database 2.

DDI: Design, development, and implementation.

DCH: State of Georgia, Department of Community Health.

DCN: Document Control Number. A unique number assigned to each document as it is imaged.

DDI: Refers to the Design, Development and Implementation activities of the contract.

DED: Data Element Dictionary. Describes the fields (data elements) within a database.

DEDUCTIBLE: The amount of expense a member must pay before Medicare or another third party begins payment for covered services.

DEERS: Defense Enrollment and Eligibility Reporting System. A system that contains eligibility information on CHAMPUS, the insurance company for military dependents.

DELIMITER: A special character used to separate fields of data. The three used in an EDI file are the segment delimiter, the element delimiter, and the sub-element delimiter.

DENIED CLAIM: A claim for which no payment is made to the provider because the claim is for non-covered services, an ineligible provider or member, is a duplicate of another transaction, contains invalid information, or is missing required information.

DENTAL CLAIM: A claim filed for payment of dental services. A claim is filed: (1) for dental screening for children, (2) for one or more services given on a single day, or (3) upon completion of service for a condition. The claim is filed on the American Dental Association claim form or HIPAA-compliant electronic claim format.

DENTAL SERVICES: Any diagnostic, preventive, or corrective procedures administered by or under the direct supervision of a licensed dentist. These services may include treatment of teeth and associated structures of the oral cavity and treatment of disease, injury, or impairment that may affect the oral or general health of the individual. Services are subject to the limitations established under the Georgia Medicaid program.

DEPARTMENT ID: Field that categorizes a transaction as Aged Blind and Disabled (ABD), Low Income Medicaid (LIM), or PeachCare (PCK). Dept ID for claims is derived from the COE and is drop down field for gross level payouts and receivables. Also uses COS to determine final value on the accounting interface.

DESKTOP IMAGING SYSTEM: An imaging system with a single workstation (often a microcomputer) meant to be used by only one person at a time. (Imaging.)

DFCS: State of Georgia, Department of Human Services Division of Family and Children Services.

DHHS: United States Department of Health and Human Services.

DHS: State of Georgia, The Department of Human Services.

DIAGNOSIS CODE (DIAG, DX) : The medical classification of a disease or condition according to ICD-9-CM or HCPCS. A numeric code that identifies the patient's condition as determined by the provider of the performed service.

DISPOSITION (CLAIMS): The actual status of a claim. The result of processing a claim is the assignment of a status or disposition. The disposition of a claim is determined by the Exception Control File.

DISPOSITION (FINANCIAL): The posting of a receipt against a payee gross level AR or claim AR, gross level of the receipt, or refunding of the receipt.

DISPROPORTIONATE SHARE HOSPITAL (DSH) PROGRAM: A federal program that works to increase health care access for the poor. Hospitals that treat a disproportionate number of Medicaid and other indigent patients qualify for DSH payments through the Medicaid program based on the hospitals' estimated uncompensated cost of services to the uninsured.

DME: Durable Medical Equipment.

DMO: Disease Management Organization.

DOAS: State of Georgia, Department of Administrative Services.

DOB: Date of Birth.

DOCUMENT: Structured file sent to a trading partner. In ASC X12 usage, a document is synonymous with a transaction set.

DOCUMENT IMAGES: A computerized representation of a picture or graphic. (Imaging.)

DOCUMENT RETRIEVAL: The ability to search for, select and display a document or its facsimile from storage. (Imaging.)

DR: Disaster Recovery. Facilities, plans, tests, etc. for the recovery of the MMIS from a total loss.

DRA: Deficit Reduction Act.

DRG: Diagnosis-Related Group. DRGs are the basis for one type of hospital reimbursement. A hospital specific fee is calculated for each diagnosis group for each hospital. Factors of age, sex, length of stay data, and historical costs for each hospital are taken into consideration in calculating the reimbursement amount. Usually, mental institutions and pediatric hospitals are excluded from DRG reimbursement due to the abnormal length of stay experienced by most patients.

DSD: Detailed System Design. Document created by the Fiscal Agent as a detailed guide to developing a new system or subsystem.

DSM: The Georgia Disease State Management Enhanced Care program administered by contracted Disease Management Organizations.

DSM III: Diagnostic and Statistical Manual for Mental Disorders, Third Edition, Revised. A publication of the American Psychiatric Association establishing a coding system for mental diagnoses.

DSS: Decision Support System.

DUPLICATE CLAIM: A claim that is either a total or partial duplicate of services previously paid. It is detected by comparing a new claim to processed claims history files.

DUPLICATE PAYMENT: A payment to a provider for services provided to a beneficiary resulting from the processing of a duplicate or near-duplicate claim by the contractor.

DUR: Drug Utilization Review.

E

EDI: Electronic Data Interchange. Standard format for exchanging business data. The standard is ANSI x12, which was developed by the data interchange standards association (DISA). ANSI x12 is either closely coordinated with or is being merged with an international standard, EDIFACT. Standards for EDI include: ANSI for claims, eligibility, enrollment, EBT, and remittance. CCIT for others. NCPDP for pharmacy, HEDIS for managed care.

EDIT: As applied to MMIS, an edit is a set of parameters against which a claim transaction is "edited." These edits can stop payment and/or generate reports. The verification and validation of claims data for detection of errors or potential error situations. Logic placed in the MMIS programming to cause claims that have specific errors to be placed in a suspend or deny mode due to not having successfully passed these edits.

EDMS: Electronic Document Management System.

EFT: Electronic Funds Transfer An electronic deposit system for provider remittance amounts, and the process of authorizing a computer system to transfer funds between accounts.

EHR: Electronic Health Records.

ELIGIBLE: Person who has been certified by the appropriate agency as meeting the criteria to qualify for Medicaid.

ELIGIBILITY FILE: A file that contains pertinent data for each Medicaid eligible individual enrolled in the Medicaid Program.

ENCOUNTER DATA: Information submitted to the MMIS by HMOs, PCP/CMs or other managed care organizations to describe service utilization by Medicaid beneficiaries.

ENCOUNTER RATE: A term used when Federally Qualified Health Centers (FQHC) and rural health clinic (RHC) providers bill and receive a rate (encounter rate) as opposed to a FFS reimbursement rate.

END USER: The ultimate consumer of an interChange product, especially the one for whom the product has been designed.

ENHANCE: Improve quality of software, hardware or other equipment.

ENROLLMENT BROKER: Contractor tasked with providing each Member and Potential Member with information about each CMO plan and assisting the Member in selecting a CMO plan and primary care provider that meets his/her family and individual health needs. This function will be included in the MMIS scope of work for this contract.

ENVELOPE: The combination of a header, trailer, and sometimes other control segments, that define the start and end of an individual EDI message.

EOB: Explanation of Benefits. A notice issued to the provider of Medicaid-covered services that explains the payment or non-payment of a specific claim processed for a member.

EOMB: Explanation of Medical Benefits. A notice issued to members selected at random listing all of the Medicaid services the member received the prior month. It instructs the case head to inform DCH if any services listed were not received and of any other problems.

EPSDT: Early and Periodic Screening, Diagnostic, and Treatment. This term is used interchangeably with Health Check for the purposes of this RFP.

ESC: Error Status Code. Edit or audit assigned to indicate the error found on the suspended claim.

EXCEPTION: The phrase "posts an exception" is commonly used when discussing claims processing to indicate there is data on the claim that fails an edit; therefore, an exception is posted to the claim.

EXP: Expenditures. The issuance of checks, disbursement of cash, or electronic transfer of funds as reported by the state.

E

FACS CODING: Fund Source, FFP, and SCOA.

FBR: Federal Benefit Rate. The income limit used by SSA in determining SSI eligibility.

FEDERAL CERTIFICATION: The written acknowledgement from CMS that the operational MMIS meets the legal and operational requirements necessary for a percentage of Federal Financial Participation (FFP).

FEIN: Federal Employer Identification Number. Number assigned to a business entity for tax purposes. This number might be of value in identifying all the businesses owned by a corporation.

FFP: Federal Financial Participation. A percentage of State expenditures to be reimbursed by the federal government for medical assistance and for the administrative costs of the Medicaid Program. Federal Participation Percent which determines the funding split between state and federal funds. The period to use is based on Date of Payment.

FFS: Fee for service.

FIELD: An on-screen area used for entering specific information, such as a name or extension number, within the telephone system. A field prompt identifies the type of information that belongs in each field.

FIELD LEVEL PARAMETERS: Define each field on the claim form as being data or mark sense; establish X and Y coordinates where the data is found; set the field level readability requirements; determine whether the field is alpha, numeric or alphanumeric; and define the data validity editing to which the field will be subjected. (Imaging.)

FIELD VALIDATION: As each field is completed by the data entry operator, its validity is checked and the field is corrected, if necessary. (Imaging.)

FILE MAINTENANCE: The periodic updating of master files. For example, adding or deleting employees and customers, making address changes and changing product prices. It does not refer to daily transaction processing and batch processing.

FIREWALL: Security protection for a Web site (see proxy server), LAN, and Intranet. May check incoming and outgoing messages.

FIRM FIXED PRICE: A single price established by the awarding of this contract that is not subject to change or negotiation over the life of the contract.

FISCAL AGENT (FA): A contractor that processes for payment and adjudication, audits provider claims for payment, and performs other related functions, as required, as an agent of DCH.

FISCAL YEAR (FY): Federal - October 1 through September 30; State of Georgia - July 1 through June 30.

FLAT FILE: A database consisting of one table. It is a stand-alone data file that does not have any predefined linkages or pointers to locations of data in other files. This is the type of file used in a relational database; however, the term is often used to refer to a type of file that has no relational capability, which is exactly the opposite.

FORM LEVEL PARAMETERS: Establishes the page size, ICN format, scanner control, image boost, dot matrix filter used, and acceptable readability. (Imaging.)

FPL: Federal Poverty Level. The minimum income required to support basic living costs for a family. The FPL is established yearly by the federal government and is based on the number of persons in a family.

FTE: Full Time Equivalent.

FTP: File Transfer Protocol. A method of transferring files between heterogeneous computing platforms. Since most large scale computing systems interface between mainframes, mini, PCs, and the Internet, a method is needed to transfer data between these different platforms. (See TCP/IP.)

FULL REFUND: Receipt received from a provider for the full amount of the original claim that was paid.

FUNCTIONAL ACKNOWLEDGEMENT: An EDI message that is sent in response to the receipt of an EDI message or packet of messages to notify the sender of the original message that it was received. It acknowledges only the receipt of the message or message packet, and does not imply agreement with or understanding of its content.

FUND SOURCE: The accounting interface codes used for federal and state funding based on the FFP determinations.

G

GAAP: Generally Accepted Accounting Principles.

GAAS: Generally Accepted Auditing Standards.

GAO: Federal Government Accountability Office.

GATEWAY: The interconnection between public or private networks that allow the transmission of documents in X12 format across multiple networks. Also called interconnect.

GB: Gigabyte.

GHF: Georgia Families. A Georgia program developed to deliver health care services to members of Medicaid and PeachCare for Kids™. The program is a partnership between the Department of Community Health and private care management organizations (CMOs).

GIS: Geographic Information System.

GMCF: Georgia Medical Care Foundation.

GO-LIVE DATE: Date on which application can be moved to a live environment after all testing has been successfully completed and written approval has been received from DCH.

GROSS LEVEL AR: Accounts Receivable transaction created on a payee that is not system generated based on net negative claim activity.

GROSS LEVEL PAYOUT: Payment made outside of the claims adjudication process and typically not linked to specific claims. HP Enterprise Services refers to as Expenditures.

GROSS LEVEL RECEIPT: Posting of a receipt against a payee number not linked to any AR or claim activity. Reduces 1099 balance but does not affect future payments.

GTA: Georgia Technology Authority.

GUI: Graphical User Interface. A "windows" based computer interface that allows for consistency of this application with other applications used by the operators. The device drivers associated with these GUIs optimize the painting of snippets and the rendering of fonts to take full advantage of the high-performance graphic cards installed in PCs.

H

HCBS: Home and Community-Based Services. HCBS includes waived services for the elderly, disabled, mentally retarded/developmentally disabled, and physically handicapped.

HCPCS: HCFA Common Procedure Coding System. A coding system designed by HCFA (now CMS) that describes the physician and non-physician patient services covered by Medicaid and Medicare programs. It is used primarily to report reimbursable services rendered to patients.

HEALTH CHECK: Screening and immunization services, case management and continuing care services for children under 21 years of age, which are provided by a Medicaid provider approved as a screener. The services are reimbursed on a fee-for-service basis for private providers and on an encounter rate based on costs for clinic providers. EPSDT is used interchangeably with Health Check for the purposes of this RFP.

HEALTH CHECK CLAIM: A claim filed for payment of EPSDT Services. A claim is filed for screening or immunization services. The claim is filed on the CMS-1500 form.

HIPAA: Health Insurance Portability and Accountability Act of 1996. A federal law that includes requirements to protect the privacy of individually identifying health information in any format, including written or printed, oral and electronic, to protect the security of individually identifying health information in electronic format, to prescribe methods and formats for exchange of electronic medical information, and to uniformly identify providers.

HIPP: Health Insurance Premium Payment. A program where Medicaid-eligible beneficiaries may receive insurance premium assistance using Medicaid funds when it is determined cost-effective to purchase group health insurance.

HISTORY ONLY: The linking of a refund or a voided check to a claim that does not adjust the claim in such a way that it would affect a subsequent provider payment.

HOME HEALTH CLAIM: A claim filed for payment of Home Health Services. A claim is filed: (1) for one or more services given on the same date; (2) upon completion of services for a treatment period; or (3) at the end of a calendar month. The claim is filed on a CMS-1500 claim form.

HOME HEALTH SERVICES: These are provided in a home setting by a licensed home health agency that participates in the Medicaid Program. Services include but are not limited to skilled nursing, home health aid, physical therapy, occupational therapy, and speech therapy. Reimbursement for covered services is based on reasonable cost as determined by cost reports and applicable costs of supplies and equipment.

HOST: Computer in which an application or database resides or to which a user is connected. Sometimes used generically as synonym for computer. (Imaging.)

HOT KEY: A term used to define the key used to request an imaged document to be retrieved. (Imaging.)

HYPERTEXT MARKUP LANGUAGE (HTML): Programming language used to develop and maintain web pages on the Internet.

HYPERTEXT TRANSFER PROTOCOL SECURE (HTTPS): Protocol to provide encrypted transmission of data between Web browsers and Web servers.

I

ICD-9-CM: International Classification of Diseases, 9th Revision Clinical Modification.

ICD-10-CM: International Classification of Diseases, 10th Revision Clinical Modification.

ICF/MR: Intermediate Care Facility for the Mentally Retarded.

ICF/MR CLAIM: A claim filed for payment of ICF/MR Services. A claim may be filed: (1) at the end of a calendar month; or (2) for the total period of confinement, if less than one month. The claim is currently filed on a UB-92 form.

ICF/MR SERVICES: Services provided in a licensed ICF/MR facility that participates in the Medicaid Program. The level of care is less than that received in a SNF. The per diem reimbursement is determined by cost report data.

ICN: Internal Control Number. Each claim is imprinted with an ICN in a sequential numbering order, beginning with the initial ICN keyed in the system by the scanner

operator. The ICN is printed across the top of the claim and is also written out to the OCR output record. The imaging system captures the ICN for indexing of the claim images and compiles a file containing all ICNs used to automatically update the control range of valid ICNs within the MMIS. A unique 13-digit identification number assigned to every GAMMIS claim in order to distinguish it from all other claims received by the system. The ICN consists of: two-byte Region, which represents claim media and claim type; a five-byte Date of Receipt, which consists of the YY – year and JJJ – Julian; and a six-byte Sequence number.

ICWP: Independent Care Waiver Program.

IMAGE: The computerized representation of a picture or graphic. (Imaging.)

IMAGE CAPTURE: The Kodak 990D scanner transportation carries the paper claim past the scanning array, which captures an image of the claim. This image is simultaneously sent to both the OCR subsystem and the CIRRUS imaging system.

IMAGING: A method of electronically capturing a representation of a form, whether it is a claim or other piece of correspondence, to allow rapid retrieval and processing of the source document copy.

IMPLEMENTATION GUIDE: A publication that identifies and defines the EDI messages used in a particular industry or application. The document indicates how the information in those messages should be presented on a segment by segment, and data element by data element basis, as well as identifying which segments and data elements are needed, which ones need not be used, and what code values will be expected in the application of that particular message.

INCENTIVES: A monetary or non-monetary motivator that is incorporated or result from the Contractor performance measures of the contract. These incentives influence the Contractor toward accomplishing the desired contractual outcomes.

INDIGENT CARE TRUST FUND (ICTF): The ICTF represents the largest component of DSH payments distributed through Georgia Medicaid. To participate in ICTF, a hospital must be a DSH provider. With ICTF funding, uninsured people who do not qualify for Medicaid may receive health care from participating hospitals.

INDUSTRY SPECIFIC: In EDI, it refers to the ability of an EDI Standard to be used by only one industry.

INITIATING CLERK ID: The ID of the clerk who initiated the claim adjustment online. The Financial system tracks this clerk ID as well as subsequent clerks who work on this adjustment by capturing and storing these IDs.

INPATIENT CARE: Care provided to a patient while institutionalized in an acute care facility.

INPATIENT HOSPITAL CLAIM: A claim filed for payment of Inpatient Hospital Services. A Claim may be filed: (1) for the total period of hospitalization; or (2) at some point during the hospitalization. The claim is currently filed on a UB-92 form.

INPATIENT HOSPITAL SERVICES: Services provided in a licensed hospital which participates in the Medicaid Program. Inpatient services are reimbursed based on a

hybrid-DRG prospective payment system. The majority of cases are reimbursed using a DRG per case rate. Remaining cases are paid based on a hospital-specific cost-to-charge ratio (CCR) system.

INQUIRY MODE: An window mode where the user is viewing data as the result of an inquiry rather than having accessed the specific window in order to add, change or delete data from certain financial records and/or claims. Inquiry Mode allows flow between the various parts of the system but does not allow changes to the data being viewed.

INSTITUTIONAL CARE: Medical care provided in a hospital or nursing home setting.

INTERNET PROTOCOL (IP): Works like the postal system. There is no direct connection – just the packet address to send messages to, and the address for returned messages.

IRS: Internal Revenue Service.

ISDM: Information Systems Development Methodology.

ISP: Internet Service Provider. Commercial provider of Internet services; e.g., AOL, Bellsouth, ComCast, etc. To use the Internet a user must have a commercial ISP that maintains a computer system through which the user accesses the Internet.

ITF: Integrated Test Facility.

IVRS: Interactive Voice Response System. This is the machine and the application that enable users to access Georgia Medical Assistance Program information by using a touch-tone telephone.

IV&V: Independent Verification and Validation. The verification and validation of the design, development, and implementation (DDI) of the MMIS by an organization that is both technically and managerially separate from the organization responsible for developing the product.

↓

JAD: Joint Application Design. Facilitated sessions between the Contractor and DCH users to ensure that the Contractor understands the State role, the Contractor role and the system requirements for each business area.

JCL: Job Control Language.

JOB QUEUE: A list of procedures in progress and procedures waiting to be run within the telephone system.

JOIN: A join defines explicit relationships between tables in a relational database. All other relationships are strictly implied. These joins enable users to relate the data in one table to data in another table in the same database so the user can query data from more than one table at a time. Tables are joined through columns.

JOIN PATHS: Join paths are the actual joins between tables in a relational database.

JOINT APPLICATION DESIGN (JAD): The process where the system user and designer meet together to define the application. Generally, requirements are reviewed, validated, and clarified.

JULIAN DATE: The representation of month and day by a consecutive number starting with January 1. For example, February 1 is Julian 032. Dates are converted into Julian dates for calculation.

K

KEY: Keys are indexed columns in tables, often used to join tables. Keys uniquely identify each record, or row, in a table. Examples would be Cust-ID or provider number.

L

LAN: Local Area Network. A communications network that serves users within a confined geographical area. It is made up of servers, workstations, a network operating system and a communications link. Servers are high-speed machines that hold programs and data shared by all network users. The workstations, or clients, are the users' personal computers, which perform stand-alone processing and access the network servers as required.

LAW: Refers to constitutional provisions, statutes, common law, case law, administrative rules, regulations, and ordinances of the United States of America or the State of Georgia.

LIM: Low Income Medicaid.

LIEN/WITHHOLD: The taking of money from payment activity that does not reduce the payee 1099 balance.

LINE ITEM: A term used in reference to a level of detail on a claim. Line item details are services billed using a procedure code, a quantity, and a date of service for a specific fee. Claims may have multiple line items or detail lines.

LIQUIDATED DAMAGES: Payment made to the State for Contractor performance failures for which the actual cost or damage to the State cannot be determined or measured at the time of the failure.

LOC: Level of Care.

Long Term Care (LTC): Long-term care is the personal care and other related services provided on an extended basis to people who are clinically complex and may suffer from multiple acute or chronic conditions.

LTCF: Long-Term Care Facility.

LEVERAGED TECHNOLOGY GROUP (LTG): The SE support group which processes the FDB DUR criteria update files, and passes the massaged updates on to the Interchange systems.

M

MAO: Medical Assistance Only. An eligibility group that receives assistance for medical services but does not receive money payment assistance.

MANUAL CHECKS: Checks written outside the automated check writing cycle.

MANUAL CLAIMS: Claims processed outside the automated claims cycle.

MANUAL RECOUPMENTS: Manual recoupments are non-claim-specific recoupments (financial reimbursements). These accounts receivable are manually set up by the State of Kansas to recoup money from providers.

MAPPING: The act of determining what pieces of information in the company's database should be placed into each data element of an EDI message or transaction set, or in reverse, what data elements of an EDI message or transaction set should be placed into the company's database.

MARS: Management and Administrative Reporting Subsystem. The MMIS subsystem that produces the management data required for financial, benefit, provider and member reporting.

MARTA: Metropolitan Atlanta Rapid Transit Authority.

MASS ADJUSTMENTS: The systematic adjustment of more than one claim at the same time for the same reason. Multiple adjustments entered at one time. Mass adjustments are requested on line and they are particularly useful when it is necessary to reprocess hundreds or thousands of claims. Mass adjustment requests are submitted for a specific population of claims. In other words, claims that have something in common. They may be all of the drug claims processed after a certain date, they may be a subset of claims for a specific provider, or they may be all of the claims processed for a specific beneficiary. The criterion for claims selection is highly variable.

MATERIAL COMPONENT(S) OF THE SYSTEM: A constituent element of the Medicaid Management Information System, or any of its ancillary systems, which is necessary for the system to function in accordance with the terms and requirements described in the RFP, the Contractor's proposal and this Contract.

MAXIMUS: Responsible for member enrollment in CMOs.

MEDICAID: The joint federal and State medical assistance program that is described in Title XIX of the Social Security Act.

MEDICAL REVIEW (MR): Analysis of Medicaid claims to ensure that the service was necessary and appropriate.

MEDICARE: The federal medical assistance program that is described in Title XVIII of the Social Security Act.

MEDICARE CROSSOVER CLAIM: See "Crossover Claim."

MEDICARE PART A: Part A of Title XVIII of the Social Security amendments of 1965 that provided benefits principally for hospital and hospital-related services. The formal designation is "Hospital Insurance Benefits for the Aged".

MEDICARE PART B: Part B of Title XVIII of the Social Security amendments of 1965 that provided benefits principally for physician's services. The formal designation is "Supplementary Medical Insurance Benefits for the Aged".

MEMBER: An individual eligible for medical assistance in accordance with a State's Medicaid Program or SCHIP Program (PeachCare for Kids™) and who has been certified as eligible by the appropriate agency and has received services.

MITA: Medicaid Information Technology Architecture.

MMIS: Medicaid Management Information System.

MSIS: Medicaid Statistical Information System commonly referred to as the automated submission of the CMS-2082 data to CMS.

MTD: Month to Date.

N

NAT: Nurse Aid Training.

NDM: Network Data Mover. A communications protocol for transferring data from one mainframe computer to another.

NET: Non-Emergency Transportation. NET Medicaid Program which through contractual agreements with brokers ensures the availability of non-emergency transportation to Medicaid-eligible persons who do not otherwise have access to transportation to medically necessary care.

NEW DAY CLAIM: Any claim, with or without attachments, received for payment consideration on that current business day. A claim is only considered "new day" on the initial date of receipt. Once the current day has passed, all unkeyed new day claims become part of the shelf inventory, which consists of all claims waiting to be processed.

NON-PROPRIETARY SOFTWARE: Any software or associated documentation that is not Proprietary Software

NPF: National Provider File.

NPI: National Provider Identifier as required by HIPAA.

NPP: Notice of Privacy Practices, as required by HIPAA.

NPS: National Provider System. An application system through which users have the capability to assign NPIs to providers and to access/update provider identification data. A voluntary federal and state joint venture to support CMS' Medicare Transaction System and to simplify program operations and provider transactions across programs. It will replace the existing Medicare Physician Identification and Eligibility System (MPIES) that currently issues the Medicare Unique Physician Identification Number (UPIN). Subsequently, new physicians would obtain a National Provider Identifier (NPI) rather than a UPIN number.

NSP: Network Service Provider. A company that maintains a network and offers its services and capabilities to others for a fee.

NTP: Non-Traditional Provider. Providers associated with a Georgia Families Managed Care Organization that are registered in the MMIS for informational reasons. The providers are not entitled to participate in the Georgia Medicaid/PeachCare for Kids™ fee-for-service program.

NURSING FACILITY SERVICES: Services provided in a facility that is licensed and regulated to provide nursing care services or intermediate care services for the mentally retarded and that participates in the Medicaid program. The per diem reimbursement is determined by cost report data, the level of care provided by the facility, and the case mix average score derived through the submission of resident assessments received from the nursing facilities electronically in a separate subsystem.

O

ONLINE: The use of a computer terminal to display computer data interactively. Available for immediate use. If your data is on disk attached to your computer, the data is online. If it is on a disk in your desk drawer, it is offline. Systems are designed as either online or batch. Online means terminals are connected to a central computer, and batch means entering batches of transactions on a second or third shift. Other terms, such as real-time and transaction processing evolved from online processing.

OPERATIONAL PHASE: The period of the contract that pertains to the day-to-day maintenance and operations of the MMIS and other functions as required.

OUTPATIENT CARE: Care provided to a patient in a non-institutionalized setting, such as a hospital outpatient clinic, emergency room, or other hospital based facility where room and board has not been provided.

OUTPATIENT HOSPITAL CLAIM: A claim filed for payment of Outpatient Hospital Services. A claim is filed: (1) for one or more services given on the same date; (2) upon completion of services for a treatment period; or (3) at the end of a calendar month. The claim is currently filed on UB-92 form.

OUTPATIENT HOSPITAL SERVICES: Services provided in a hospital emergency room or outpatient facility by a licensed hospital participating in the Medicaid program.

P

PA: Prior Approval.

PAID CLAIM: A claim that has resulted in the provider being reimbursed for some dollar amount. The amount may be less than the amount which the provider billed DCH.

PAID DATE: The date that a check or EFT was generated.

PANEL: A display screen of data, defined by a title and the tagged description of the objects, such as instruction lines, data entry lines, menu areas and command lines. Each of these objects may include other objects, described in the same syntax. Panel definitions are joined in a source file to form a panel group. Objects can be shared by all panels.

PARAMETER: Any value passed to a program by the user or by another program in order to customize the program for a particular purpose. A parameter may be anything; for example, a file name, a coordinate, a range of values, a money amount or a code of some kind. Parameters may be required as in parameter-driven software or they may be optional. Parameters are often entered as a series of values following the program name when the program is loaded.

PARTIAL REFUND: Receipt received from a provider for the portion of the amount of the original claim that was paid.

PASSWORD: Confidential code used in conjunction with the User ID to gain access to a system.

PATIENT INCOME: The patient's liability income amount that must be contributed toward the cost of nursing home care by each resident.

PATIENT LIABILITY: See Patient Income above.

PAYEE: The facility or person that receives payment.

PAYMENT CYCLE: A cycle from the adjudication of claims that results in payments to providers.

PAYOUT: Non-claim specific payment to a provider or other entity (i.e.: insurance company).

PBM: Pharmacy Benefits Manager.

PEACHCARE FOR KIDS (PCK): PeachCare for Kids™. State of Georgia Children's Health Insurance Program (SCHIP). The federal-State Children's Health Insurance

Program (CHIP) was created under the Title XXI of the Social Security Act. The health benefits include primary, preventive, specialist, dental care, and vision care.

PEER REVIEW: An activity performed by a group or groups of practitioners or other providers to review the medical practices of their peers for conformance to generally accepted standards.

PENDING CLAIM: A claim that is in the adjudication process.

PER DIEM: A daily rate usually associated with payment to an institution such as a hospital or a skilled nursing facility assigned to institutional providers.

PHI: Protected Health Information. The information that needs to be protected that pertains to electronic, paper, or oral versions of information.

PHYSICIAN CLAIM: A claim filed for payment of Physician Services. A claim is filed: (1) for one or more services given on the same date, or (2) upon completion of services for a treatment. The claim is filed on CMS-1500 form.

PHYSICIAN SERVICES: Services provided by a licensed physician. Services include physician visits, laboratory and X-ray services, family planning, etc. Also included are professional services performed, certain optometry services, and eyeglasses as prescribed by a physician skilled in diseases of the eye or by an optometrist.

PI: Program Integrity Unit.

PIN: Personal Identification Number. A number used to provide a password into the system for security purposes.

PMBOK: Project Management Body of Knowledge. A guide to the current knowledge and common lexicon within the project management profession.

PM: Project Manager.

PMI: Project Management Institute.

PMO: Project Management Office.

PMP: Primary Medical Provider.

PMPM: Per Member Per Month.

POS: Point of Sale.

POS/EVS: Point of Sale/ Eligibility Verification System.

PRECERTIFICATION: Hospital precertification means approval of all inpatient hospital admissions (except routine deliveries) and selected services performed in an outpatient hospital or ambulatory surgical center setting at least one week prior to the planned admission or procedure. Emergent admissions and emergent surgical procedures must be certified within 30 calendar days of admission.

PREPAYMENT REVIEW: Provider claims suspended for review prior to final adjudication.

PRIOR AUTHORIZATION: An authorization granted by the State agency to a provider to render a given service to a specific member.

PROCESSED CLAIM: A claim that has been adjudicated.

PROGRAM: Used to reference ABD, LIM, or PCK.

PROJECT ID: Field that categorizes a transaction as Regular Medicaid/Family Planning, PeachCare, Breast and Cervical Cancer, Federal less state share, Money Follows the Person, and Refugee. Also combines transaction type as determined by the type of activity and the FFP period.

PROPRIETARY SOFTWARE: Any software and associated documentation provider to DCH and its Affiliates under this Agreement for which the Contractor or its licensors or any other third party retains any ownership rights or other Intellectual Property as authorized by 45 CFR Sect. 95.617 and for which no federal funds were used to design, develop, install or enhance such software.

PROTOCOL: In information technology, it is a set of rules describing the contents of an electronic communication. To communicate, both the sender and receiver must adhere to the protocol. See TCP/IP, HTTP, and FTP.

PROVIDER: An eligible institution, facility, agency, managed care organization, administrative service organization, person, partnership, corporation, or association as enrolled and approved by the State which accepts, as payment in full for providing eligible services, reimbursement provisions, regulations, and schedules. Also, The renderer of a service to a member.

PROVIDER RELATIONS: Fiscal Agent employees that provide assistance to providers regarding Medicaid/MediKan programs.

PROVIDER ELECTRONIC SOLUTION (PES): Proprietary HP Enterprise Services software that allows providers to submit claims from a personal computer.

PRTF: Psychiatric Residential Treatment Facility.

PURGE: Refers to moving data from the master files to the archive files.

Q

QA: Quality Assurance.

QAT: Quality Assurance Team. A multi-disciplinary team that investigates, resolves, and monitors activities performed by the FA.

QI: Qualifying Individual; a "non-Medicaid" COA that provides only for payment of the recipient's monthly Part B Medicare premium.

OMB: Qualified Medicare Beneficiary. Aged, blind or disabled individuals who have Medicare Part A (hospital) insurance, and have income less than 100 percent of the federal poverty level and limited resources. Medicaid will pay the Medicare premiums (A&B), coinsurance and deductibles only.

QUEUE DIRECTORY: A directory on a hard drive into which batch requests to unit storage are placed. (Imaging.)

R

RA: Remittance Advice.

RAD: Requirements Analysis Document.

REALTIME SYSTEM: A computer system that responds to input signals fast enough to keep an operation moving at its required speed.

REASONABLE: To use appropriate instruments or methods to bring about a desired outcome which has been dictated by this contract or by the Georgia Department of Community Health.

RECORD: A set of related fields used to enter and store information in the telephone system. A table is a set of records.

RECOUPMENT: Money withheld from a provider's payment due to overpayment of claims during adjudication cycles. Recoupments may be established online by accessing the Accounts Receivable Set Up window. They may be set up as a percentage or as a set amount to be recouped. An Accounts Receivable record is established for each recoupment type a provider might have. The taking of money from payment activity and applying against an outstanding debt owed DCH. The activity reduces the payee 1099 balance.

REMITTANCE ADVICE: A record generated for Providers identifying payment(s) made to the Provider, the member(s) for which Medicaid made the payment(s), claims that have been entered into the system and are pending, and/or denied claims. The Remittance Advice is available hardcopy or electronic media at the discretion of the Provider.

RELATIONAL DATABASE: A database or collection of data organized into related tables comprised of rows and columns. The tables define relationships between the records.

RELEASE: The release is associated with a specific version of a product being made available to the client. Also known as system release or version.

RESOLUTION: Usually used in context as claims resolution, pending resolution, or suspense resolution. It refers to the process of working or correcting errors on a claim, forcing edits, updating or modifying inaccurate data such as a provider number or category of service, or any other activity necessary to complete the adjudication of the claim.

RESOURCE: Any real or personal property, stock, bond, or item of value owned by an individual.

REVENUE CODES: The three-digit accounting codes used on hospital claims to designate the service which generated the income, e.g., room and board = 110, laboratory pathology = 300, and physical therapy = 420. Revenue codes are used in billing both inpatient and outpatient services. These codes are essential to the hospital cost reporting process.

REVIEW: Examination and evaluation of the suitability of a particular deliverable or process.

RFP: Request for Proposals.

RTP: Return to Provider. Claims or non-claim documents that must be mailed back to the provider for additional information or clarity.

RULES BASED PROCESS: Rules Based Processing, or Table Driven System, or Parameter Based Processing are terms that refer to systems that store data element variables in user-alterable tables rather than storing them inside a fixed computer program.

RUN DATE: The date a report was generated.

RURAL HEALTH CLINIC: The RHC Program was established in 1977 to address inadequate supply of physicians who serve Medicare and Medicaid beneficiaries in rural areas. Rural Health Clinics are located in areas designated by the Bureau of Census as rural and by the Secretary of the Department of Health and Human Services or the State as medically underserved.

RURAL HEALTH CLINIC CLAIM: A claim filed for payment of Rural Health Clinic Services.

RURAL HEALTH CLINIC SERVICES: Services provided in a rural health clinic that participates in the Medicaid program. The services are reimbursed on a per clinic visit rate based on costs.

S

SAK: System Assigned Key.

SCALABILITY: The ability to manage the increases of staffing levels and of system throughput due to increased number of users, increased number of members, increased transaction volume, increased data volume and other relevant factors utilizing software and hardware modifications without impacting the performance of users.

SCAN: To convert human-readable images into bitmapped or ASCII machine-readable code. (Imaging.)

SCAN RATE: Number, measured in times per second, a scanner samples an image. (Imaging.)

SCANNER: A device that reads text, images and bar codes. Text and bar code scanners recognize printed fonts and bar codes and convert them into a digital code. Graphics scanners convert a printed image into a video image without recognizing the actual content of the text or pictures.

SCHIP: State Children's Health Insurance Program, in Georgia known as PeachCare for Kids. The Federal-State Children's Health Insurance Program (CHIP) was created under the new Title XXI of the Social Security Act. The health benefits include primary, preventive, specialist, dental care, vision care, inpatient, and restorative.

SCOA: State Chart of Accounts. General Ledger account determined based on Date of Service.

SCREEN SCRAPING: The process of capturing data from a 3270 screen session, locating the image associated with that screen, and displaying it to the user. (Imaging.)

SDX: State Data Exchange. A file created by the Social Security Administration that contains all beneficiaries who are eligible for SSI, and other data pertinent to the eligible, including termination dates and changes to information on the record.

SERVICE: A covered medical benefit under the Medicaid Program performed by a provider for a member, usually indicated by a service or treatment code.

SERVICE ORIENTED ARCHITECTURE (SOA): Represents the processes and activities needed to manage the assets of the organization in their various states. Services are detailed in an organization's information model showing what information the "Service" owns (creates, updates, and deletes) and which information it references and is owned by other "Services".

SERVICE AUTHORIZATION: See Prior Authorization.

SKILLED NURSING HOME SERVICES: Skilled nursing home services are rendered in an institution to the member. The claim relating to skilled nursing home services represents the total period of confinement, if the confinement is less than one month in duration. If the confinement is longer than one calendar month in duration, a claim may be filed each calendar month.

SLC: System Life Cycle. The HP Enterprise Services methodology for the planning, development, implementation, and support of software system projects.

SLMB: Beneficiaries that are Specified Low-Income Medicare Beneficiaries who are eligible only for payment of their Medicare Part B premiums and whose income does not exceed 120 percent of FPL.

SNF: Skilled Nursing Facility.

SNF CLAIM: A claim filed for payment of SNF Services. The claim is filed on a UB92.

SNF SERVICES: Services provided in a licensed SNF that participates in the Medicaid Program. The per diem reimbursement is determined by cost report data and the level of care provided by the facility case mix average score derived through the submission of resident assessments received from the nursing facilities electronically in a separate subsystem.

SOAP: Simple Object Access Patrol.

Provides a way for applications to communicate with each other over the Internet, independent of platform.

SORTING: Sorting allows the user to display the retrieved data in either ascending or descending order, or in alphabetical or numerical order.

SPENDDOWN: A type of Medicaid insurance deductible. The dollar amount of medical bills the beneficiary is responsible for taking care of before Medicaid can help the beneficiary pay his or her medical bills. Spenddown is the difference between the beneficiary's income and the Medicaid income limit. A qualifying county nurse may assign this dollar amount to a beneficiary (based on the beneficiary's income, etc.), which must be spent on medical needs prior to Medicaid benefits being available.

A process whereby an otherwise Medicaid-eligible person, but for excess income, may become eligible through obligation of the excess amount of incurred medical expenses. A requirement that certain beneficiaries, in order to be eligible for Medicaid, must spend money on their medical bills to offset their excess income. This is a requirement for the Medically Needy category of eligible beneficiaries. In cases of short-term spenddown, the spenddown amount is defined as being the amount that should be used for a beneficiary's provided services prior to Medicaid being involved.

SPSS: A commercial off-the-shelf statistics and data analysis software package.

SQL: System Query Language. The programming language used to access data in relational databases.

SSA: Social Security Administration. The federal agency that determines eligibility for SSI beneficiaries.

SSI: Supplemental Security Income. A federal needs-based, financial assistance program administered by SSA.

SSN: Social Security Number.

STAKEHOLDER: Party or parties that have a fiduciary interest in the Medicaid Management Information System (MMIS).

STORAGE CONFIGURATION: A drop-down list box containing these three options: Interactive, Batch, and User-Defined. (Imaging.)

SUBCONTRACTOR: Party contracting with the Contractor to perform services for DCH of not more than 30 percent of the total scope of services required under the contract. Entities which are subsidiaries or are otherwise owned in part or in whole by Contractor will not be considered subcontractors to the Contractor.

SUCCESS (System for Uniform Calculation and Consolidation of Economic Support Services): The Georgia system for determining Food Stamps, TANF, Social Services and Medicaid eligibility. Administered by the Department of Human Services (DHS), and the Department of Human Services Division of Family and Children Services (DFCS).

SURProfiler: The SUR process that provides a statistical screening tool designed primarily to identify physicians with medical resource use that is substantially different from their peers. It provides an in-depth view of utilization patterns and associated costs and allows for profiling of providers and members.

SURS: Surveillance and Utilization Review Subsystem of the MMIS.

SUSPENDED CLAIM: A claim that is taken from the processing flow for additional information, correction or review.

SYSTEM: All of the subsystems collectively and referred to as the MMIS.

SYSTEM CHANGE: A revision made to any portion of the subsystems collectively referred to as the MMIS for the purpose maintaining or improving the operation of the overall system.

SYSTEM GENERATED: Information not input from another source (e.g., a data file, data transmission or keyed by the user). Examples are date, time, calculated numbers, etc.

SYSTEM TEST: A test of all functions within a subsystem of the MMIS ensuring that all data and functions are handled correctly. In addition, the functions within the system are then tested to ensure interaction from system to system and outside the MMIS, i.e., BUY-IN, BENDEX, etc.

I

T-1 CONNECTION: A high-speed connection to the Internet. Required in organizations having a large number of employees accessing the Internet.

TANF: Temporary Assistance for Needy Families.

TCM: Targeted Case Management.

TDD: Telecommunication Devices for the Deaf.

TFAL: Technical Functional Area Lead.

TPL: Third Party Liability. A case in which an individual, institution, corporation, or public or private agency is liable to pay all or part of the medical costs of injury, disease or disability for a Medicaid member.

TIMEOUT: A state that occurs when a response is not given within a defined time limit, for example, when a caller is prompted to enter digits and does not do so

within the time period specified in the Voice System Parameters Table within the telephone system.

TITLE IV-D: Child and medical support services.

TITLE IV-E: Title of the Federal Social Security Act that authorizes financial assistance for foster children and for families receiving adoption assistance.

TITLE VI: Civil Rights.

TITLE XIX: The provisions of Title XIX of the Social Security Act, including any amendments thereto authorizing the Medicaid Program.

TITLE XXI: The Balanced Budget Act of 1997 amended Title XIX to provide each State the optional use of State child health assistance funds under Title XXI, State Children's Health Insurance Program (SCHIP) for enhanced Medicaid matching funds and expanded Medicaid eligibility for certain Medicaid groups.

TOC: Table of Contents.

Trading Partner: Entity that, by HIPAA compliance standards, can share information about a member.

TRANSACTION PROCESSING: Processing transactions as they are received by the computer. Also called online or real-time systems, transaction processing means that master files are updated as soon as transactions are entered at terminals or received over communications lines.

TRANSACTION SET: A block of information in EDI, making up a business transaction or part of a business transaction.

TRANSACTION SET STANDARDS: The system of syntax, data elements, segments, and transaction sets (messages) with which EDI will be conducted.

TRANSLATOR: A program used to convert information from flat file to EDI format or from EDI format to flat file.

TRUNK: A telephone line used to make and/or receive calls within the telephone system.

TRUNK GROUP: A set of trunks used for a specific application within the telephone system. Trunk groups are defined in the Trunk Group Database Table. Trunks are assigned to both an incoming trunk group and an outgoing trunk group in the Trunks Table.

U

UAT: User Acceptance Testing.

UB-04: The National Uniform Billing 04 form will replace the UB-92. Use of this form will be required beginning May 23, 2007.

UM/QIO: Utilization Management and Quality Improvement Organization (formerly known as PRO).

UPIN: Unique Physician Identification Number.

USER: A data processing system customer.

USER ID: The code unique to an individual which allows the user to sign-on to the computer system and defines the user's security status.

V

VACCINE FOR CHILDREN (VFC): A federally funded program that provides immunization serum for qualified children.

VAN: Value-Added Network. A vendor of EDI data communications and translation services. (Switched network provider).

VPN: Virtual Private Network. Internet software for the client desktop. This allows two users to communicate via the Internet, and for security purposes, it is a closed network between the two sites. Along with this technique is "tunneling" which allows data to be sent through a private tunnel rather than over the Internet connection.

VSAM: Virtual Storage Access Method. An IBM access method for storing data, widely used in IBM mainframes.

W

WALKTHROUGH: Step-by-step review of a specification, usability feature or design conducted jointly by DCH and Contractor.

WBS: Work Breakdown Structure.

WHOLESALE CHANGES: Mass changes performed by computer program that detail how to process need standards and income increases for the designated group of beneficiaries covered by Medicaid.

WINDOWS: A graphics-based windows environment from Microsoft that integrates with and interacts with DOS. It provides a desktop environment similar to the Macintosh, in which applications are displayed in re-sizable, movable windows on screen.

WITHHOLD/LIEN: The taking of money from payment activity that does not reduce the payee 1099 balance.

WORKFLOW: Automates many of the manual activities associated with task notification, timing, escalation, completion and overall control. Workflow is engaged whenever there are desk to desk activities or sequential human interaction.

Example:

Item: Written Correspondence

Details of the written correspondence are stored within CTMS

Actual process of where the written correspondence goes is Workflow

WORK PLAN: A document describing in detail the activities required to complete a specific phase of the Contract, which clearly defines necessary tasks, participants, time estimates and schedules.

WIS: Waiver Information System.

WTD: Week to Date.

X
